**What do superintendents think about RapidTurf bentgrass?**

"We've used RapidTurf on four different courses. Sodding 19 greens over a 2½ week period. Each of these greens was playable inside of two weeks. RapidTurf does not float like washed sod. And since there's no damage in cutting, it roots faster after installation. I highly recommend it!"

Tom Jauch  
Vice-President GolfVision LLC

"RapidTurf is a good product. We used it for tees last year and we will use it again this year. There's no doubt, it establishes faster than washed sod."

Tom Brodeur  
Crystal Tree Country Club

"It went in great and it looks awesome. I can't wait to see it in play."

Michael Gruening  
Park Ridge Country Club

"It roots faster than any grass I've seen before. In fact, it began rooting within two days of installation. We opened in half the normal time. It's great stuff!"

Lawrence Flament,  
Stonewall Orchard Golf Club

"We used it on tees. RapidTurf got them back into play within 7 days. It accepted high traffic with no problem. I am very pleased."

Bob Lively  
McHenry Country Club

"We used it last fall for four greens. It's an easy and fast installation. The first green took two and a half hours. We top dressed it and rolled it the next day. There are no signs Poa, none."

Steve Van Acker  
Crystal Lake Country Club
