

## DO YOU EVER HAVE TO GROW GRASS IN A HURRY?

- ‡ Is it tough to keep enough grass on your practice tee?
- ‡ A week after a repair do your divots look like grass or sand?
- ‡ How do your fairways hold up under heavy use?
- ‡ How does your turf endure very dry conditions?

Use compost to help solve your turf problems.

- ‡ Compost has 25%+ organic content
- ‡ Compost is Rich in essential micronutrients
- ‡ Compost contains active families of beneficial microbes
- ‡ Compost retains 10 to 15 times its weight in water

“DryJect® aeration/sand injection is tremendous. There's nothing else like it.”

Paul B. Latshaw,  
Superintendent, Muirfield Village Golf Club

Call today for a free  
DryJect demonstration.

### Only a DryJect® Contractor can help.

See the unique, dynamic pattern of three dimensional channels that are created by a typical DryJect application. The aggressive subsurface changes created allow for air, water and nutrients to feed the root zone like no other system on the market today without disrupting the surface. DryJect has been used on some of the nation's top golf venues including Oakmont, Winged Foot and Merion. Also, the Dallas Cowboys Training Center uses DryJect.

Contact an authorized, experienced DryJect Service Center Contractor and start aerating, injecting or modifying your soil today.

**DryJect®** Only DryJect Contractors can inject while aerating.
