

At Pinehurst #2 they are preparing for the 2005 US Open with Toro irrigation and equipment. The latest in irrigation technology is Toro's newest sprinkler head the 835/855 with TruJectory. The adjustable spray arc allows you to water under tree canopies and adjust your spray angle to hillsides. Contact your TPEC representative to find out more about the 835/855 sprinkler along with the NEW VP Satellite, NEW Site Pro 2.0 and 835/855 conversion assemblies.

Call your TPEC account executive for more information on Toro products.
