

Adapts to its Surroundings

JACOBSSEN® ECLIPSE™ 122 & 122 F

Like a chameleon, the new Eclipse 122 & 122 F walking greens mowers from Jacobsen® can adapt to any turf, condition, operator or environment. Independently adjustable ground speed, reel speed and FOC give you the unprecedented power to dial in to the exact cut you want. 50% more float eliminates scalping – even on the most undulated turf. An advanced control system takes variability out of the operator equation for a more consistent cut every time. And a variable-configuration platform allows for hybrid or battery power to provide stealth-like quietness, fuel savings and reduced emissions. Field tested and superintendent approved, the Jacobsen Eclipse gives you the power to mow with confidence, precision and superior results – every single day. For more information, call 1.888.922.TURF or visit jacobsen.com.
