

Now is the time to FALL for a Lastec 100" Articulator

THE Articulator®

100" of Precision and Production

Superintendents around the world have been using the Lastec Articulator on their golf courses for over a decade. The new **100" ZTR and PTO** Articulators are the latest innovations from Lastec offering mowing precision and productivity. These mowers **cut 100" of grass** with the **accuracy of a 21" push mower**. With the throw of a switch their **outer decks fold** to reduce the transport width to 78". And, they **safely trim** closer to ponds, banks, and other obstacles.

- Over Eight Feet of Mowing Width Increases Productivity
- Five 21" Articulating Decks Increase Cut Accuracy
- Narrow 78" Transport Width Fits on Most Trailers
- Mulching Kit for Fall Clean Up

Precise and productive...the Articulator®

If you haven't stretched out of your comfort zone in awhile, now is the time to give Lastec a call.

Also Available
100ER - 100" PTO Mowing Deck
