

The Utility Vehicle You Asked For is Here

Introducing the new Toro Workman HDX Auto

No manual clutch, no shifting, and no sacrifices. The same reliability, quality and product features you have come to expect from Toro heavy-duty utility vehicles just got better. The days of slipping tires as you let out the clutch are gone. The days of training new operators on how to drive a manual transmission are gone. This dream machine climbs the most difficult terrain and maintains consistent speed over undulating fairways and hills.

- SpeedContr'l™ delivers precise ground speed during spraying and top dressing applications
- Two-speed transmission with high and low range
- Towing capacity of 3,500 lbs
- Kohler 28 hp liquid-cooled EFI gasoline engine
- Two-wheel and four-wheel drive options
