MIDWEST REGIONAL TURF FOUNDATION EDUCATIONAL CONFERENCE
PURDUE UNIVERSITY, LAFAYETTE, INDIANA, MARCH 3-6, 1952

THE BULL SHEET, monthly publication of the Midwest association of Golf Course Superintendents. Editor, William H. Stuppel
543 Michigan Ave. Highland Park, Ill.
Associate Editors, Bert Rost, Al Johnson.

THE PRESIDENT'S MESSAGE

It is with a great deal of pride and humility that I accept the honor you have bestowed upon me in electing me to the high office of President of the Midwest Association of Golf Course Superintendents. This is particularly trying when I contemplate succeeding Bill Stuppel and try to fill his shoes.

It shall be the purpose of this administration to continue the emphasis on golf as set up by the former administration, to lend all possible assistance in the realization of our turf research experimental project, and to continue our educational program as set up during the past. As improvements can be made in these projects, we will make them as we go along.

It is with a great deal of relief that I am able to announce that Bill Stuppel will continue as Editor of The Bull Sheet and that the financial condition of the publication is in good shape. We know that with Bill at the helm we will have better and better Bull.

The ultimate success of any project depends on the active participation of the membership and I ask each of you to take part in the activities of OUR association. Our monthly meetings are YOUR meetings and will be planned for your education and entertainment.

This issue of the Bull Sheet will reach you before the National Conference at Columbus and all who attend will greatly profit from the meeting. I suggest that you plan to come.

Yours for better turf.

Ray Davis, President

MIDWEST ELECTION RESULTS

At our Annual meeting held at the Sherman Hotel, Chicago, the following officers were elected for 1952.

President - Ray Davis, Medinah Country Club.
1st Vice President - Robert Williams, Beverly C. C.
2nd Vice President - Bert Rost, Park Ridge C. C.
Secretary - Al Johnson, Indian Hill C. C.
Treasurer - Walter Kilmer, Ravisloe C. C.
Directors - Henry Lange, Matt Bezek, Amos Lapp, Herman Woehrl, William Stuppel.

Dr. O. J. Noer was present at the meeting and gave us his usual very interesting "Annual Report To The Superintendents."

The annual reports of the Treasurer and Secretary indicates that the organization is in excellent condition in every way and that we can look forward to ever increasing strength in our association.

GEORGE A. DAVIS, INC. OPEN HOUSE

George A. Davis, Inc. will have open house for Golf Course, Park, Cemetery customers on Thursday, February 21, all day. As usual representatives of manufacturers whose merchandise the Davis organization distributes in the Chicago district will be on hand. Every effort will be made to show the latest turf maintenance equipment and supplies. Of course, the usual refreshments and entertainment will be on tap, with door prizes for the lucky numbers. If you do not get your invitation, come anyway. All Superintendents will be heartily welcomed.

C. O. Borgmeier

A MESSAGE FROM OUR NATIONAL PRESIDENT

Welcome to our 23rd National Turf Conference and Show.

The Golf Course Superintendents Association of America together with the host association, the Central Ohio Golf Course Superintendents Association, extend to you a most cordial invitation to attend the 23rd National Turf Conference and Show at the Neil House, Columbus, Ohio, February 4-8, 1952. This is the only national event of this type dedicated to more efficient and economical maintenance of turf.

Be sure to avail yourself of this opportunity to attend this annual combined equipment and educational program. It behooves everyone interested in turf culture, especially golf course superintendents and greens committeemen, and those who are concerned with other phases of turf maintenance to attend all lectures and visit all exhibits. Manufacturers will display all kinds of new labor-saving equipment as well as maintenance materials and supplies. I urge all of you to mark this date on your calendar.

A diversified educational program covering all phases of turf culture has been arranged by the educational committee and is one of the best yet. It will be a red-letter day in your life when you attend this Conference.

Anticipating renewing old friendships and meeting new friends, I am

Sincerely yours,

W. H. Johnson, President

Golf Course Superintendents Association of America.

INSECT CONTROL IN SHRUBBERY PLANTINGS

The control of insects in shrubbery plantings is not usually a difficult problem.

Many scale insects may be controlled with a dormant oil spray (½ pint in 2 gallons of water) applied before growth starts and when the temperature is above 40 degrees F. Oyster shell scale on lilac and other shrubs is difficult to control with dormant sprays. A better method is to use ½ pint of 25 percent DDT emulsion in 2 gallons of water applied during the early summer when the young crawler scales are active and moving about over the plants.

Plant lice or aphids may be controlled with 3 teaspoonsful of 40 percent nicotine sulphate in 2 gallons of soapy water or with the new Lindane sprays or dusts used according to directions.

Beetles, caterpillars, slugs, leafhoppers and plant bugs may be controlled with DDT sprays or dusts. Use a 5 percent DDT dust or spray made with 6 teaspoonsful of 50 percent wettable DDT powder in 2 gallons of water. Twenty-five percent DDT emulsions can also be used according to directions on the container.

Lead arsenate is also effective against many beetles and caterpillars. It should be used at the rate of 12 teaspoonsful in 2 gallons of water. It will kill bagworms if applied while they are still small.

Many shrubs, especially evergreens, are susceptible to red spider damage. If water pressure is available, spray plants frequently to destroy some of the spiders. Dust if necessary with fine dusting sulphur or spray with wettable sulphur at the rate of 12 teaspoonsful in a gallon of water.

Falls, Ohio.

Lawrence Huber, Supt., Ohio State Univ. Golf
Course, Columbus, Ohio.

Orville Young, Supt., The Moraine Country Club,
Dayton, Ohio.

A. R. Twombly, Supt., James Baird State Park,
Pleasant Valley, N. Y.

L. E. Lambert, Supt., Oakwood Golf and Country
Club, Dodson, Mo.

Paul Weiss, Supt., Lehigh Country Club, Allentown,
Pa.

RESEARCH AND EXTENSION TEAM —

Dr. Fred V. Grau, Leader, Director U.S.G.A. Green
Section, Beltsville, Maryland.

Dr. William H. Daniel, Asst. in Agronomy Dept.
Purdue University, Lafayette, Indiana.

Professor H. B. Musser, Professor of Agronomy,
Pennsylvania State College, State College, Pa.

Alexander M. Radko, Research Agronomist, U.S.G.A.,
Green Section Beltsville, Maryland.

Dr. J. A. DeFrance, Agronomist, University of Rhode
Island, Kingston, R. I.

Ralph Engel, Asst. Extension Specialist in Turf Man-
agement, Rutgers University, New Brunswick, N.J.

B. P. Robinson, Turf Specialist, Georgia Coastal Plain
Experiment Station, Tifton, Ga.

Lawrence Numzenmaier, Graduate Student, Purdue
University, Lafayette, Indiana.

THURSDAY, FEBRUARY 7, 1952

MORNING SESSION

FRANK DINELLI, Chairman, Director G.C.S.A.
Superintendent Northmoor Country Club, Highland
Park, Illinois.

9:30 A. M. Soil Structure and Drainage.
Dr. Virgil Overholt, Extension Agricultural Engineer,
Ohio State University, Columbus, Ohio.

10:00 A.M. Tests For Showing Plant Food Deficiency.
Dr. O. J. Noer, Agronomist, The Milwaukee Sewer-
age Commission, Milwaukee, Wisconsin.

Dr. Wm. H. Daniel, Assistant in Agronomy Dept.,
Purdue University, Lafayette, Indiana.

10:30 A. M. Fairway Maintenance Program At Los Angeles Country Club.

Bill Beresford, Supt., Los Angeles Country Club, Los Angeles, Calif.

10:30 A. M. Control of Chickweed and Clover In Fairways.

Prof. H. B. Musser, Professor of Agronomy, Pennsylvania State College, State College, Pa.

11:15 A. M. National Coordinated Crabgrass Results. Alexander M. Radke, Research Agronomist, U.S.G.A. Green Section, Beltsville, Maryland.

11:45 A. M. Question and Answer Period.

AFTERNOON SESSION

JOHN PRICE, Chairman, Director G. C. S. A. Superintendent Southern Hills Country Club, Tulsa, Okla.

2:00 P. M. Records and Labor Management: Records On A Golf Course.

Taylor Boyd, Supt., The Camargo Club, Cincinnati, Ohio.

Superintendents Relations.

Frank P. Dunlap, Supt., The Country Club, Cragin Falls, Ohio.

2:45 P. M. Relationship Between Golf Course Superintendent and Club Member.

Roger J. Bear, Safety Director, The Kroger Company, Cincinnati, Ohio.

3:15 P. M. Short Cutting vs. Long Cutting of Fairways.

SHORT CUTTING

Dr. Fred V. Grau, U.S.G.A., Green Section, Beltsville, Maryland.

Ralph Engel, Ass't. Extension Specialist in Turf Management, Rutgers University, New Brunswick, N. J.

Robert Henderson, Supt. Country Club of Buffalo, Williamsville, N. Y.

LONG CUTTING

Dr. Wm. H. Daniel, Ass't. in Agronomy Dept., Purdue University, Lafayette, Indiana.

Dr. J. A. DeFrance, Agronomist, University of Rhode Island, Kingston, R. I.

Clarence Wolfrom, Supt., Maple Lane Golf Club, Warren, Michigan.

4:00 P. M. Question and Answer Period.

SPREADING IT THIN

Donald Gerber spent two weeks in Florida during December. John Houdek of Arrowhead Country made one of four that made the trip with Gerber playing many of the Florida Golf Courses. They had a fine time and good weather.

John Houdek of Arrowhead is attending the 16 weeks course for Grounds Superintendents at the University of Mass. at Amherst, Mass.

Al Johnson of Indian Hill says the curling activity at Indian Hill is very great between storms and thaws. "Night and Day, seven days a week, they curl" says Al.

Bert Rost took off for Florida Tuesday the 8th of January. This is Bert's first vacation in many years.

Winter sports are heavy at Skokie Playfield, Winnetka. About 1400 people skated on January 8th, reports Ray Runfeldt. Ray says the Winnetka Park District built a coasting hill 30 feet high containing 10,000 yards of soil that came from the Sanitary Sewer. It is big enough for 5 coasting lanes using sleds and Toboggans. On a good day 600 people will use the hill. It is the first project of this type in the relatively flat North Shore area.

Henry Lang reports that Glenview Club has lots of Skeet, Skating and Snow.

Pete Stewart of Butterfield plans his Florida trip after the Convention in Columbus. Pete and his wife will spend the balance of February in Florida.

Bill Stuppel of Exmoor will spend several weeks in the Miami District starting the last week in Jan.

Ray Davis and his family spent the last two weeks of December in Florida and returned sunburned and tanned. When Ray was complimented on his color he said he laid on the beach for two weeks. Ray said, "the fishing was good but nobody was catching anything". Ray saw Norman Johnson and his family and reports that they are well and happy and enjoying their all year around summer jobs.

Oscar Borgmeier will spend three weeks in Jan. in Fort Lauderdale.

Bob Williams of Beverly C. C. is spending two weeks in January in Florida.

Don Strand and his family saw the Rose Bowl football game at Pasadena, California. Don and family had a wonderful trip but the California winter quota of rain, 4", fell while they were there. The boys had seats on the 8th and 9th rows on the 50 yard line for the game. They attend the University of Illinois.

We have reported from time to time that Pete Stewart of Butterfield is a past master in the training of hunting dogs. It is with great surprise that we heard that Pete was trying to find good homes for his well trained pups and were puzzled until we found that Pete had gone farther along the line and was now training the pheasants to walk right into the pot. So Pete no longer needs the dogs.

Walter Hoyt, our fire chief Grounds Superintendent, spent a busy two weeks shoveling snow over the Holidays. Walter says the cattle he is fattening are doing well. He is now also in the firewood business having taken down some 40 trees to help speed up the play at Timber Trails.

Ben Gee of Nordic Hills was able to get out of his country home near the club for three days during the first week in January. The rest of the time he was snowed in.

George Roloff, of Roselle Country Club, was snowed out of his home at the club for 3 weeks during the last of December and early part of January. George hopes to take off for Arizona before January 15th and to stay there till March 15th.

Quite a group of Midwest members attended the Annual Meeting of the Michiana Association at Notre Dame University on Monday, November 19. Bob Williams, Ray Gerber, Bill Smith, George Roloff, Amos Lapp, Ed Wohlenberg and Paul Burdett made the trip.

During the afternoon we made an inspection trip to see the new hotel at the edge of the campus and then visited the new germ-free laboratory where animals and poultry are raised in completely germ free surroundings. These animals are later used for research work in cancer studies and many other activities.

Dinner was served later in the College Dining room and we partook of delicious roast turkey with all the trimmings. Brief talks were given by Fathers Cavanaugh, Holdreth and Joyce, and by Moose Cornish, Director of Athletics at Notre Dame. After that we were shown a picture of the Notre Dame-Southern Methodist football game.

MIDWESTERN SHADE-TREE CONFERENCE

The seventh annual meeting of the Midwestern Chapter of the National Shade Tree Conference will be held at the LaSalle Hotel, Chicago, on February 13, 14, 15, 1952.

Wednesday, February 13

Registration

Welcome, Alfred F. Carlstrom, President Midwestern Chapter, National Shade Tree Conference.

"Insects As Carriers of Tree Diseases", Roy D. Shenefeld, Associate Professor, University of Wisconsin.

"Safety Practices in Arboriculture", Karl Kuemmerling, Forester to Public Utilities, Canton, Ohio.

"The Arborist in Community Development", Robert E. Everly, Superintendent, Glencoe Park District, Glencoe, Illinois.

"Labor-Management Relationships", Harold W. Glissmann, Superintendent of Grounds, Father Flanagan's Boys' Home, Boys' Town, Nebraska.

"Tree Pests"—Symposium.

Meeting of Executive Committee, Midwestern Chapter, N.S.T.C.

Thursday, February 14

Loyd Beal, Session Chairman

"Co-operation vs. Cut-Throat Operation", Marvin Stevens, Arborist, Glenview, Illinois.

"High Speed Ecology and the Arborist", August P. Beilmann, Manager, The Arboretum, Missouri Botanical Garden, Gray Summit, Missouri.

"Stump the Plant Experts" - Panel Discussion.

John Swingle, Session Chairman.

"Economic Trends Affecting Arborists", Oscar Borgmeier, Treas.

"Modern Practices in Tree Work", J. C. Carter, Plant Pathologist Illinois Natural History Survey, Urbana, Illinois.

Business Session

Banquet, Entertainment, Dancing, Toastmaster, Forrest C. Strong, Michigan State College, East Lansing, Michigan.

Friday, February 15

Larry C. Wachtel, Session Chairman

"Wetwood Diseases of Elm and Poplar", Carl E. Seliskar, Assistant Professor, Colorado A. & M. College, Fort Collins, Colorado.

"See Both the Forest and the Trees", J. Nelson Spaith, Head, Dept. of Forestry, University of Illinois, Urbana, Illinois.

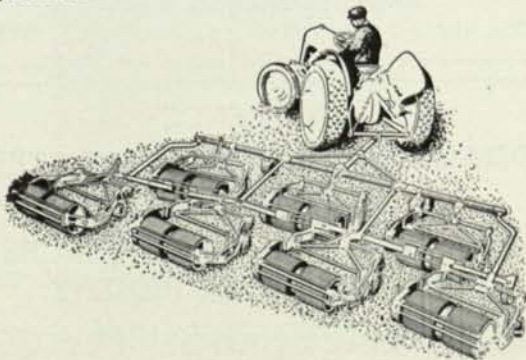

"Chemotherapy Against Oak Wilt", Paul Hoffman, Illinois Natural History Survey, Urbana, Illinois.

DUTCH ELM DISEASE IN ILLINOIS

Up to September 19, eleven cases of Dutch Elm Disease had been found in Illinois during the past summer. One infected tree is located at Lawrenceville, two at St. Joseph, one on the University of Illinois campus, one in Urbana, one east of Charleston, and five in or near Tuscola. These trees are located in a rough belt about 150 miles in length south of Urbana-Champaign and about 20 to 40 miles west of the Indiana State line. The northern-most infected elm, at Urbana, is about 130 miles south of Chicago. Dr. Carter of Illinois Natural History Survey advises that culture tests are being run on several more samples, hence, the final results may show some difference both in number of trees and area.

—O—

OAK WILT

Complete returns from surveys to determine extent of the oak wilt disease have not yet been released. It was found this summer for the first time in Michigan, Maryland, West Virginia, Tennessee and North Carolina. This makes a total of 16 states in which the disease is now known to be present. It was reported recently from Brown County, Indiana, well-known scenic and recreation area of that State.
