THE BULL SHEET, official publication of THE MIDWEST ASSOCIATION OF GOLF COURSE SUPERINTENDENTS.

BERT H. ROST, *Editor*,
Midwest Rd. Nr. 31st Street
Hinsdale, Illinois

PRESIDENT'S MESSAGE

This is the time of year for reflections, reviews and selections. Experts make predictions, Sports writers ponder over the yearly parade of champions. We look back and think of our successes and our mistakes. We look forward with hope and ambition. Budgets have been completed and approved by the finance committee. Equipment is being overhauled and painted. Orders have been placed for new necessary equipment. Inventories have been taken and all records brought up to date. There is one thing we may have forgotten. Have we taken inventory of ourself? Have we accomplished the many things we planned on doing during the past year? Have we attended monthly association meetings? Have we kept ourself posted on the improved equipment, the latest chemicals, and fertilizers used for the maintenance of a golf course? Have we volunteered to participate in the operation of our association, either local or national, and always conducted ourself in a gentleman like manner at our club, at home or away from home? Inventory is very important to the individual in our profession as well as it is in any profession. This we should always remember.

Our January 6th meeting was well attended, 122 were present. Our many thanks to C. O. Borgmeier and Chuck Daugherty of the Geo. A. Davis Co. who were our host. O. J. Noer and Charlie Wilson from the Milwaukee Sewerage Co. presented to us, as they always do, a most interesting educational program. Our many thanks to both of them.

There will be no Midwest Association meeting during February. This is due to the G.C.S.A. Conference and Show, and also several members will be on vacation. By the time this issue of the Bull Sheet reaches you many Superintendents will have their bag packed ready to leave for the Sherman Hotel, where I hope I will see all of you and many of the officers of your club. They are all welcome without charge provided their Superintendent has previously registered.

Ray Gerber, President

BY-LAW CHANGE

Article II, section 1 (d). Class B Members. Superintendents who are employed in golf course maintenance work as qualified Superintendents, but who are not eligible for admission as Class A Members. Class B Members may attend all meetings and are entitled to all benefits of the Association. All persons when making application for membership as Class B Members in the Midwest Association of Golf Course Superintendents must also make application for membership in the Golf

Course Superintendents Association of America simultaneously with the making for membership herein.

Article II, section 1 (f). Class D Members. Commercial members who are sufficiently interested in our profession to attend meetings and work for advancement of this Association, but who are not eligible for admission as Class A Members. Class D Members may be dismissed from business meetings at the discretion of the President but may attend all educational or social meetings and are entitled to all benefits of the Association except however, they shall not have the right to vote. Effective January 1, 1959, it will be mandatory for Class D Members to be a member of the Golf Course Superintendents Association of America.

FOUNDING OF THE NATIONAL ASSOC.

By John MacGregor

This dissertation must necessarily include the birth of the National Association, as it was the means by which all of the locals throughout the U.S.A. and Canada came into being.

In the late spring of 1926 a man came to visit me at The Chicago Golf Club where I was employed. He introduced himself as John Morley, Greenkeeper at the Youngstown Country Club, Youngstown, Ohio. His Club had given him a leave of absence to make a survey of the Golf Clubs in the Metropolitan areas of the East and Middlewest to ascertain whether or not the Greenkeepers of those areas would be interested in forming a National Association of Greenkeepers. He informed me that on his survey through the East, the idea had been well received, that most of those he had spoken to assured him they would join such a movement.

I believe my Club was the last one he visited in the Chicago District, among several others. It appealed to me, as at that time there were only two men I knew that I used to visit, Frank Mastrolco at Geneva Golf Club and Dave McIntosh at Glen Oak Country Club. However, I told him to submit my name for membership, when and if such a meeting was called.

A meeting was called at The Sylvania Golf Club Toledo, Ohio, September 26th, 1926, at which time the officers and board of directors were elected. John Morley — President, John McNamara — Vice President, Wm. Rockefeller — Secretary, Alev McPherson — Treasurer, Directors — Fred Burkhart, John Pressler and I believe Joe Valentine and myself.

In due time I received a letter from the Secretary notifying me of my election to the board, also requesting me to arrange for a meeting in Chicago as soon as this could be arranged, and when the time and place could be ascertained, to notify the President so he could come and explain the Aims and Objects of the Association and to assist us in forming a local Organization of our own.

My first thought was how far should I reach out for prospective members. After much consideration I decided to send an invitation to all of the Greenkeepers in the states of Indiana, Illinois, Iowa and Wisconsin, if such a thing was possible. I found there was a book known as the Frazer's Year Book with all of this information which I purchased, and found in it the names of Golf Clubs and the Greenkeepers all over the United States. My problem then was how to go about getting those invitations ready for mailing. I bought a Hectograph, and found twenty copies could be imprinted from one letter, so I had to write in long hand five letters for every 100 letters. Writing paper, envelopes and stamps had to be bought. For three weeks my wife, my three children and myself worked evenings and Sundays, at the end of that time I found that we had mailed 500 invitations.

The time set for the meeting was November 26th, 1926 and was held at the Great Northern Hotel Chicago, with John Morley and Fred Burkart of the National Association officiating. I had hopes of a pretty good percentage out of the 500. However, when the meeting was called to order, only sixteen were present, one came from Wisconsin, two from Indiana, thirteen from Illinois. President Morley explained the aims and objects of the Association, which was founded on Education, Justice and Benevolence. He then proceeded to organize our group. I was elected President, Alex Binnie - Vice President, Eddie Dearie - Secretary, and Fred Sherwood - Treasurer. The board members I do not recall at this time. It was gratifying to note that all of the sixteen joined both our local and the national, and this was notably true for quite a few years.

At a later meeting, we decided on a name for our local, and were to be known as the Mid-West Greenkeepers Association, which I am glad to say has not lost its identity. We were host to the N.A.G.A. convention in March 1927, there were several speakers on the Program. The Equipment Show was not a feature until 1928 in Detroit. It might be interesting to you to know just how many attended the first convention. There were 68 members and I would say that was a very good representation.

During our infancy we had well attended meetings. Our regular meetings were once a month, and at those meetings everyone would go on a tour of the course conducted by the host Greenkeeper, in that way we got to know each other. Many questions were asked and there was less reluctance about explaining why one did this or that. Two weeks after the regular meeting we would play golf, no business, so we visited two courses a month. Before our association started no one would want to visit another golf course.

W. A. CLEARY CORPORATION
NEW BRUNSWICK, N. J.

We became better acquainted with each other, and felt more free to discuss our problems and methods of solving them, although, as I look back to those days thirty years ago, we did not have the problems you are confronted with today. The only disease I can recall that gave us any trouble was large Brown Patch, and our remedy was an application of Lime which seemed to have the desired effect, indicating to us then that acidity was the cause. It seems to me even today that application of lime intelligently applied would eliminate a great deal of our Fungii troubles.

Our methods of maintenance were somewhat different than they are today. We believed in top-dressing our greens, and that was done religiously once a month, starting as soon as weather conditions permitted in the Spring and as late as November for the last dressing. (These dressings were approximately one yard to average green.) We had no mat on our greens, as the monthly dressings well rubbed in did not give the grass a chance to mat.

Progress has been made, there is no question about that, as problems have arisen over the years that have demanded research and brought into prominence such men as Noer, Daniels, Musser, Tyson, Stoutmeyer, Grau, Monteith, and many others, who probably never would have had an opportunity to bring their talents to bear on your problems.

Had it not been for the National Association I never would have had the opportunity of visiting hundreds of Golf Clubs, and traveling in twenty different States and meeting and knowing hundreds of men in your profession whom I call friends. This alone is worth more to me than all of the time and money I have contributed toward its success. Our Organization is built on education, no one can ever learn enough, Conferences, Short Courses, Local or National Meetings, give one an opportunity to observe and absorb much. Read, write, learn and inwardly digest.

Our local has gone a long way in thirty years, from sixteen regular members to 205 is a healthy growth, every member should strive to become a member of the board of directors of either his local or national, even aspire to the Presidency. However, to achieve this he has to have the support of his local association. I hope that those of you who are not members of the national will join and help elect the man you have chosen to be Vice-President. Our Mid-West Association has been noted since its origin as a model for progress and education. Many other locals are adopting our program of education and look to us as the leaders in Association work. This is an honor indeed. Many good men have served as President and Directors of the Mid-West during the past thirty years, we have just concluded a very successful year under the leadership of Ed Stewart.

We now enter a new year under the leadership of Ray Gerber, who I predict will be a real credit to the Association. Another notable change toward better understanding between the men in charge of private clubs and public fee clubs. This is evidenced by the fact that two of the eight members of the board are superintendents of daily fee clubs.

We must not forget that the National Association was not the first organized group of Greenkeepers in the U.S. The New England greenkeepers were organized in 1923 or 24 and were known as The New England Greenkeepers Club, so we must salute this group as the first to see the necessity for association.

CLIPPINGS

Pete Voykin, Idlewild C. C. became a father for the first time to a son, Mark Andrew, congratulations, Pete.

Charlie Shultz of the Ruth Lake C. C. had his half way house broken into twice and finally burned down before Xmas.

Charlie Rack of Chevy Chase expects to spend some time after the turf conference in California.

Mr. and Mrs. Emil Cassier usually take an early vacation but Emil doesn't expect to be able to get away this season. Their daughter is expecting and Mrs. Cassier isn't about to leave at this time.

Misters Frank and Dave Mistroleo and their wives spent Christmas in California.

MIDWESTERN SHADE TREE CONFERENCE MEETS IN CHICAGO

The 14th annual meeting of the Midwestern Chapter of the National Shade Tree Conference will be held February 18-19-20, 1959, in the La Salle Hotel, Chicago, Illinois. Problems of concern to all who are interested in the care of trees and shrubs, either as a home owner or a professional horticulturist, will be discussed. Attendance is not restricted to membership in the Conference. Registration will start at 8:30 A.M. February 18. Equipment and supplies used in arboricultural and gardening work will be on display throughout the three-day meeting. An attendance of about 400 is expected.

The educational program will include the following topics and speakers: **TOOLS USEFUL IN DIAGNOSING TREE TROUBLES**, J. C. Carter, Illinois Natural History Survey, Urbana, Illinois; **TREES FOR STREET AND HOME PLANTING**, John C. Van Camp, Midwest Shade Tree Consultants, Rockford, Illinois; **JAPANESE BEETLE AND CONTROL METHODS**, L. B. Matzenbacher, Division of Plant Industry, Glen Ellyn, Illinois; **EXPERIENCES IN STUMP REMOVAL**, Charles S. Walters, University of Illinois, Urbana, Illinois; **HOME OWNER'S NEEDS FOR TREE CARE**, Mrs. A. Campbell Perks, Rockford, Illinois; **ELM BARK BEETLES — SPREAD AND CONTROL**, Hugh E. Thompson, Kansas State College, Manhattan, Kansas; **MEMBERSHIP PRIVILEGES AND RESPONSIBILITIES**, L. C. Chadwick, Secretary, National Shade Tree Conference, Columbus, Ohio; and a **SYMPOSIUM ON DUTCH ELM DISEASE** with the following panel of speakers, George E. Hafstad, Department of Agriculture, Madison, Wisconsin; Donald L. Schuder, Purdue University, Lafayette, Indiana; James A. Hoyt, Northbrook, Illinois; Marvin DeSmidt, Racine, Wisconsin; Max W. Hillman, Galesburg, Illinois; Lewis F. Dinsmore, St. Louis, Missouri; and Fred E. Wagner, McPherson, Kansas.

Nael B. Wysong,
Secretary

CLIPPINGS

Mr. and Mrs. Ed Stewart and family are visiting relatives near Saint Petersburg, Fla. We understand Mr. and Mrs. Martin Gruening and family joined them later.

Bill Stuppel and Frank Dinelli left shortly after the new year for Florida, hope those guys don't find my favorite fish-hole at Naples. Mrs. Stuppel and Mrs. Dinelli are to come down a bit latter to fry the fish.

Paul W. Burdette, Jr. has completed his time in the Army and is now back at work with his father in the golf course supply business.

Vernon Pansa, Superintendent of the Liniolnshire Country Club is planning to be married on or about Friday, Feb. 13th, 1959.

Roy Nelson of Ravisloe Country Club has cut down over 200 trees in his rough. Roy says that he will be better able to maintain these areas by this move.

Floyd Saunders, Ridge Country Club, is now in his new 40 x 100 maintenance building. Floyd says the 40 x 40 heated part is wonderful for repairing machinery and he'll be glad to receive all who come over for a tour of his facilities.

Russ Reed and family are some place in Fla. Fine thing Russ, invite all those guys down to have lunch and then leave town.

Mr. and Mrs. Harold Reed are visiting relatives in Sunny California.

Tribute to Grass

"Next in importance to the divine profusion of water, light, and air, those three physical facts which render existence possible, may be reckoned the universal beneficence of grass. Lying in the sunshine among the buttercups and dandelions of May, scarcely higher in intelligence than those minute tenants of the mimic wilderness, our earliest recollections are of grass, and when the fitful fever is ended, and the foolish wrangle of the market and the forum is closed, grass heals over the scar which our descent into the bottom of the earth has made, and the carpet of the infant becomes the blanket of the dead.

"Grass is the forgiveness of nature — her constant benediction. Fields trampled with battle, saturated with blood, torn with the ruts of cannon, grow green again with grass, and carnage is forgotten. Streets abandoned by traffic become grass grown, like rural lanes, and are obliterated. Forests decay, harvests perish, flowers vanish, but grass is immortal. Beleaguered by the sullen hosts of winter it withdraws into the impregnable fortress of its subterranean vitality and emerges upon the solicitation of spring. Sown by winds, by wandering birds, propagated by the subtle horticulture of the elements which are its ministers and servants, it softens the rude outlines of the world. It invades the solitude of deserts, climbs the inaccessible slopes and pinnacles of mountains, and modifies the history, character, and destiny of nations. Unobtrusive and patient, it has immortal vigor and aggression. Banished from the thoroughfares and fields, it bides its time to return, and when the vigilance is relaxed or the dynasty has perished it silently resumes the throne from which it has been expelled but which it never abdicates. It bears no blazonry of bloom to charm the senses with fragrance or splendor, but its homely hue is more enchanting than the lily or the rose. It yields no fruit in earth or air, yet should its harvest fail for a single year, famine would depopulate the world."

GEORGE A. DAVIS, INC.

NEW Lightweight **T O R O** Greensmaster
Cutting Weight only 44 pounds

Floating cutting unit, independent of the traction unit and catcher, puts only 44 pounds of pressure on the green. No build-up of weight and pressure because of clippings in the catcher.

Follows ground contours without digging or gorging. 21", 12 blade reel with 2 short-section rollers in front, 3 in rear. 3 hp - 4 cycle, recoil starter.
