

(Continued from Page 44)

on bermuda grass and is very selective. It is a product of Rohm and Haas, the active ingredient is 3, 5-dichloro-N-(1,1-dimethyl-2-propynyl)-benzamide.

Question: We often criticize researchers for working only on test plots what is your comment?

Johnson: We do hear that often, that is why I worked with Sencor for three years on seven golf courses.

Question: What is your main message to us?

Johnson: Often chemical salesmen are too influential on rates and not on purpose. Always use test plots yourself. Do not spray the entire golf course and then be sorry. It is very important to keep good records on all your spraying. Local people need a good current education on weed killing. Always understand your rates and keep good calibration of application. Our work is only as good as your application.

HOOKS AND SLICES

The salesman mentioned that he'd got three orders so far that day: "Get out. Stay out. And don't come back."

My wife and I have a perfect understanding I don't try to run her life . . . and I don't try to run mine.

PLANTS IN TAMPA AND FT. PIERCE

Hector Supply Co. gives us a big hand!

In the past our small magazine staff has addressed the "South Florida Green" envelopes by hand . . . a time consuming job!

Now thanks to Hector Supply and their Computer Center we've gone modern . . . saving 75% of the time formerly spent.

Shown left to right; Ralph Luga, Computer Specialist, Ralph Baxter, Vice President, Turf Sales and Fred J. Maxted, President Hector Supply Co.
