WHAT: "Living in Today's World."

WHEN: Tuesday, October 2, 1984, 7 A.M.

WHERE: F.T.G.A. Prayer Breakfast.

YOU'RE LOOKING AT 365 DAYS OF BROWN PATCH CONTROL.*

It's that time of year when Rhizoctonia (Brown Patch) can break through your overseeding defenses.

But not when you use CHIPCO® 26019 turf fungicide. You'll have fewer disease problems and healthy overseeded greens when you include CHIPCO 26019 fungicide in your program. Also, additional sprays of CHIPCO 26019 during the year help make a smooth spring transition.

*Under normal conditions, two bags of Chipco 26019 are sufficient to treat an average size green for 365 days.

EVERYTHING'S UNDER CONTROL.

CHIPCO® 26019

Turf Fungicide
