

### Dew's heavy in Oregon

In a recent edition of *The Florida Green*, you carried an article by Tom Mascaro entitled "Dew is not Dew." It was since re-published in the *Carolinas Newsletter*.

Since we live in an area of heavy dew, I am sure that the article would be of interest to many of the readers of the *OGCSA Newsletter*. Could we have permission to reprint the article or would this have to be obtained from Tom Mascaro?

I have long intended to write you and congratulate you on your fine publication. Since we have nowhere near the courses or advertisers that you have in your area, we do the best we can with our limited resources.

Dick Malpass, Executive Director  
Oregon GCSA  
Vancouver, Wash.

### We all share the pride

Congratulations to you and the *Florida Green* for the best cover award in the GCSAA contest. Your continued excellence in this area makes all of us in Florida very proud to be a part of such a great association and have such a great champion in the magazine field representing us. Many thanks for all your efforts.

### Articles have broad applications

One of the good things about a magazine like *The Florida Green* is that ideas presented in articles do not necessarily apply only to the particular subject matter.

Mike Bailey's "Run for your Life"

about good lightning design for golf course rain shelters and restrooms opened my eyes to problems in an entirely different application. We are reconstructing a shower house near the ocean at our Beach Club. Mike's recommendations caused me to review and change the entire design!

I used about 10 of his 24 recommendations and I think our members will now be better protected when they leave the ocean to shower off.

The message is: "Don't skip articles because you don't think they pertain to you."

All good ideas are useful someplace.

## Mosquito and Fly Control is easier than you think!

### with the all-electric, ultra-quiet **Whispermist—10 ULV Sprayer**

Mount one in minutes on just about anything with wheels. Decimate mosquitoes, gnats, and flies at the rate of 3 to 6 acres per minute, with only 1/2 ounce of insecticide per acre! Works quietly and efficiently from a 12 volt battery — forget about gasoline, oil, and obnoxious noise and fog. Beecomist even provides insecticides, training and free technical support. There is no easier, more effective, more agreeable way to quickly control biting insects on a golf course, campground, park, resort, or other large outdoor area. Call us TOLL-FREE at 1-800-548-0787 for more information and a free subscription to our informative newsletter on flying insect control.
