chance and submitted his resume and landed the job. The following year Dale moved to Naples, FL to assume the duties of superintendent of the Moorings Country Club. In 1991, Dale moved to the Royal Palm CC where he remains today.

When asked about those people who had the biggest influences on his career Dale responded, "Dr. (Gene) Nutter from Lake City

certainly was the biggest academic influence in learning the business. Superintendents Charlie Jarrell and Bubba Luke were early mentors who gave me a job, let me do my job and gave me good advice on how to deal with people. I would have to also give credit to all of my past green committee chairmen (about 20 of them) who influenced me for the good, the bad and the ugly."

### Gary Grigg named for GCSAA DSA

Florida's own Gary Grigg, CGCS, MG of the Royal Poinciana Golf Club in Naples has been named as the recipient of GCSAA's Distinguished Service Award for 2000. He will be presented this prestigious award during the opening ceremony of the 71st International Golf Course Conference and Show in New Orleans Feb. 16.

Grigg served as president of the GCSAA in 1995. He didn't retire from association service when he moved to Florida. He is currently serving as the external vice president of the Everglades GCSA, and he is still active on GCSAA committees. Congratulations to Gary from all of his Florida friends and peers, and thanks for all the time and effort spent to make the golf course superintendents profession and associations just a little better.

Walters became involved in the Everglades GCSA and the Golf Course Superintendents Association, volunteering his time to serve on committees and the board of directors of the EGCSA. He completed his CGCS certification in 1986.

Walters is a past president of the Everglades GCSA and served as the chapter delegate to GCSAA for three years. He has been a speaker at two GCSAA International Conferences and he is currently serving on the GCSAA Information Services Committee. He has also taught turf management classes at Edison Community College on Disease Identification and Introduction to the Golf Course Industry.

About his personal work and life philosophies Walters says, "I'm still a work in progress. I pray for rain then I pray for rain to stop. I pray for the bugs and disease to go away and I pray for the crew to show up for work. I also pray for the members to be happy. My faith is an influence on everything I do or say and how I manage my life, my work and my family."

As far as memorable moments go Dale reverts to his buckeye beginnings. He says, "The best moments are when Ohio State beats Michigan, which doesn't happen often enough." He quickly adds that among his most treasured memories were the 11 days he spent with his wife touring England, Scotland and Wales.

Walters has been married to his wife Connie for 29 years and has four children, Carrie Hope (24); Amanda

Faith (20); Joshua (13) and Charity Grace (12). Dale says his hobbies and interests include watching Josh catch fish while he doesn't and being active in his church.

#### GCSAA REGIONAL SEMINARS

### Regional Seminars Wrap Up 1999 Education Calendar

As 1999 came to a close, three FGCSA Affiliated Chapters held GCSAA Regional Seminars to provide continuing education credits for Florida superintendents seeking certification or recertification.

The FGCSA works with the local chapters to coordinate the dates and seminar selections to avoid schedule and topic conflicts.

The South Florida Chapter held a seminar in July at the Orangebrook GC in Hollywood. Dr. Charles Peacock presented a program on "Protecting Natural Resources on Golf Courses." Then in September in Orlando, the Central Florida Chapter presented "Human Resource Management" with longtime GCSAA faculty member, Dr. Bree Hayes. The North Florida Chapter in Jacksonville finished off the series of regional seminars in November with a program on "Integrated Disease Management for Bermudagrass Golf Courses." presented by University of Florida turf pathologist, Dr. Monica Elliott.

These eight-hour, college-level presentations are worth .7 CEUs each for the attendees who must attain a

minimum of 10 continuing education credits in a five-year period since their last certification. Seven of the ten units must be tested programs and the attendees must pass written exams at the end of the seminar. The remaining three units can be from attendance of other local education which have been approved in advance for professional develop-

ment (PDU) credit by the GCSAA.
