Visit the Florida GCSA Web site for breaking news and events calendar

After an extended reconstruction period, the Florida GCSA Web site is back online and contains late-breaking news and information. Also click on the calendar link on the home page to see upcoming events around the state. We will endeavor to post the most recent information on a daily to weekly basis and refresh the page often.

And for those who just can't make those local chapter meetings, the site will provide you with the most current information on issues facing the industry. Also, please be aware that seven of our 12 local chapters also have Web sites, so you can check on registrations for events, education and contract information to become members.

Remember there is a dual membership requirement agreement between GCSAA and the affiliated local chapters. Join one and you are obliged to join the other as well.
