

Signs *Basic Communication Tools*

Using signs as educational tools is an effective way to communicate environmental messages to your golfers. Let's face it, very few superintendents have day-to-day contact with most of the golfers who play their courses. Opportunities to educate golfers are few and far between. Follow the lead of some Florida golf courses, and let signs help you send an environmental message. — Shelly Foy

Demonstrate your proactivity and inspire others to care for the environment.

Let golfers know that your course is participating in an environmental program and committed to environmental stewardship.

Legendary greens and bunkers have one thing in common...
they both began with the best soil.

Beneath every meticulously groomed green is dirt. And, the best dirt doesn't just happen. At **Golf Agronomics Supply & Handling** we've been perfecting golf course soil and sand for more than a decade. Our computerized soil blending equipment ensures that the mix you receive meets your exacting specifications – every order, every time. With production facilities located throughout the Southeast, Golf Agronomics offers volume orders and next day service.
