

LESCO EDGER SPRAYER

SAVE TIME AND LABOR BY SPRAYING THOSE TOUGH-TO-MAINTAIN AREAS WHILE YOU MOW.

The LESCO Edger Sprayer attaches easily to most commercial mowers and turf equipment. It operates off the electrical system of the equipment and is activated by a foot switch. The nozzle sprays when and where you choose, which means more efficient use of chemicals. Reduces waste. Use the LESCO Edger Sprayer around trees, fence posts and sand traps to spray Roundup[®], weed controls and growth regulators.

Roundup[®] is a registered trademark of Monsanto Company.

"The LESCO Edger Sprayer has been one of our biggest labor savers. For us it means no more trimming."

*Scott Sincerbeau
