

THE DeBRA FAMILY OF ROTARIES.

For a picture-perfect cut!

THE JACOBSEN TURFCAT II DW224 is a new 4-wheel diesel, out-front riding rotary that features extensive use of hydraulics for simplified, reliable operation. Hydraulics drive the rotary, power the steering, lift the cutter deck and other implements, and operate the transmission. Jacobsen Turfcats II riding rotaries are also available in 3-wheel, rear steering models with gas or diesel engines.

JACOBSEN 32", 36" and 50" ROTARIES are designed for maneuverability, yet are tough enough to handle your big jobs. Operators can walk behind these self-propelled units for close trimming, or attach the optional sulky and ride behind for large area mowing.

THE EXCEL HUSTLER is the most maneuverable of all out-front riding rotaries. It features a dual hydrostatic system that directs **INFINITELY VARIABLE** speed, direction, and braking through each drive wheel; all operated by one convenient hand control.

THE CUSHMAN RIDING ROTARY has been "engineered with common sense", to be one of the most economical and easily maintained out-front riding rotaries in use today. With the Cushman name on it, and the DeBra name behind it, you know you can count on top performance.

Stop by your nearest DeBra Sales/Service Center and meet the rest of the DeBra family of rotaries... or call today for a no-obligation demonstration.
