

LESCO...

the name to know for overseeding.

As a superintendent who maintains bermudagrass, it's your job to keep the course green all year round. That means overseeding.

Choose from premium blends and mixtures – including certified blends – and your winter golfers won't be disappointed. Neither will you. With LESCO blends and mixtures you'll get improved disease resistance,

excellent wearability, quick establishment, heat and drought tolerance, beautiful color and consistency throughout the overseeding season. And the cutting quality of the turf makes mowing – and golfing – a pleasure.

LESCO also offers a complete selection of individual overseeding varieties which can be purchased

separately or custom blended to your specifications. And you'll get service, support and technical know-how, as well as timely shipments from our regional warehouses.

Before you buy anything else, consider the benefits of LESCO seed. Quality, selection, service and value will be yours.

Call toll free today. (800) 321-5325
