

LESCO LISTENS...

Introducing The LESCO Greensmower.

At LESCO, we listen and respond to customer needs. That's been the company philosophy for more than 20 years and it's the reason why we are now introducing The LESCO Greensmower.

Scheduled for production in early May, this new triplex unit is engineered and built to meet your expectations. More power. Better maneuverability. Easier service. Improved filtration. All at a substantial savings.

The LESCO Greensmower is equipped with an 18-horsepower, twin-cylinder engine for added power and less vibration and features power steering for better maneuverability – eliminates cables.

Designed for easy servicing, the mower features access to valve spools without removing the valve bank and a hydraulic pump designed for simple detachment through the use of a flexible coupling.

Loosening two bolts allows each reel motor to be disconnected and pulling two pins permits the removal of each cutting unit.

Standard on the mower is an upgraded oil filtration system designed to increase the life of the hydraulic components and minimize downtime.

And then there's the price.

The LESCO Greensmower is available for \$7500.00 with nine-blade reels.

Five-blade reels, grooved rollers and vertical cutting units are also available.

Put the LESCO Greensmower to work for you. Talk to your LESCO Sales Representative or call us toll-free.
