

Be Choosy

Only LESCO offers four distinctly different sulfur-coated urea fertilizers. Each available in a variety of analyses.

Choose from our standard formulation, a new intermediate mini-size, the popular ELITE micro-particle products or the new ELITE with iron and manganese bonded to every particle.

All top quality. All designed to provide steady, gradual greening for up to three months.

Order today. Contact your LESCO Sales Representative, visit your local LESCO Service Center or call us toll free.
