

To apply granular XL is to excel in your preemergence weed control.

With just one application, you can keep your fairways free from crabgrass and goosegrass and many broadleaf weeds throughout the season — four months or longer.

Your control's not only longer with XL, it's stronger, too. Stronger than oxadiazon against crabgrass. Just as strong or stronger against goosegrass over a longer time. And excellent against *Poa annua* and other winter annual broadleaves, too, with a fall application.

Not only that, XL stays put. It won't

wash out, even in heavy rainfall. And once activated, it forms a vapor zone just below your turf to prevent weed breakthroughs better and longer than anything else.

XL is also available in granular fertilizer combinations from leading formulators. To excel with XL, see your Elanco distributor. Or call toll-free: **1-800-352-6776.**

Conference Center where board meeting was held Saturday, August 6, 1988.

A Successful 12th Annual Crowfoot Open

by **GEORGE and CHARLOTTE JONES**
Wellington Golf Club

The elegant surroundings of the Grand Cypress Resort helped to make the 12th Annual Crowfoot Open a memorable weekend for all participants and their guests from August 6th through the 8th in Orlando, Florida.

Hospitality plus was shown to all by the host chapter, Central Florida, the Crowfoot Committee, all the resort staff, and volunteers.

The FGCSA held a board meeting Saturday August 6th. An educational seminar

was offered Sunday August 7th. The topics were Fungicide Treatment, Tree Selection, and Refurbishing Projects. All three were extremely well presented. Sunday evening festivities included cocktails, buffet dinner, door prizes, entertainment and dancing.

Monday morning, August 8th, a complimentary continental breakfast was served in the club. After breakfast it was check-in time for the golf tournament and warm-up on the driving range.

“I SWITCHED TO RAIN BIRD... Because Life’s Too Short!”

“I had tremendous problems with my other system. Now, MAXI®-ET is as close to having my own custom control system as there is. It didn't take long to see that the satellite is far superior to the other system. And the central unit is light years ahead of it, too.

“And, there's a big difference in flexibility. MAXI-ET doesn't tie you down to a closed set of parameters. MAXI-ET can solve many problems in irrigation by letting the superintendent use all the innovative tools available to him and letting him make the decisions.

“MAXI-ET is dependable. It works. Repair and maintenance is as much as 3 to 4 times lower per year.

“After installing the MAXI-ET system, we also changed all 27 greens, 5 tees, and 2 fairways to Rain Bird's 51DR rotors and they're here to stay! I'd say we'll save \$3,000 to \$4,000 in repair and labor this year by switching to the DR rotor.

“I highly recommend the Rain Bird system to anyone, anywhere!”

Gregory W. Graham, Golf Course Superintendent
The Tucson National Resort and Spa, Tucson, Arizona

Make Rain Bird your first choice.

See for yourself how this complete irrigation and environmental management system with a state-of-the-art, on-site weather station will save you time, energy, money *and* headaches. Remember, life's too short.

Ask your distributor about convenient Rain Bird financing.

It was a very warm day and everyone appreciated the beverages waiting at designated areas on the golf course. At just the right time delicious boxed lunches were delivered to each person in the tournament.

As for the golf course, Jack Nicklaus designed The New Course at Grand Cypress. The design was purposely planned to pay tribute to the great courses of Scotland. There are some similarities to The Old Course at St. Andrews like double greens, stone bridges, walls and burns.

Starting time for the shotgun tournament was 9:00 A.M. While the participants waited in their carts for the start, a hubbub of friendly chatter filled the morning air. Then, they were off anticipating a good round of golf.

It was a very warm day and everyone appreciated the beverages waiting at designated areas on the golf course. At just the right time delicious boxed lunches were delivered to each person in the tournament.

As for the golf course, Jack Nicklaus designed The New Course at Grand Cypress. The design was purposely planned to pay tribute to the great courses of Scotland. There are some similarities to The Old Course at St. Andrews like double

greens, stone bridges, walls and burns.

Golfers on The New Course have the feeling of playing in an open meadow. Very little water comes into play and few trees are located within the interior of the course.

The New Course complements the existing 27 holes, also designed by Jack Nicklaus, but features steeper and more challenging bunkers and slopes. There are 140 bunkers ranging from small pot bunkers to gaping bunkers which have steps for access. The new greens are much larger in square footage with the new 18 encompassing more area than all the existing 27 combined.

Tom Alex, the Golf Course Superin-

tendent, gave a talk during the Buffet Dinner Sunday evening before the tournament. He knew this was the first time the Crowfoot Open was to be played on The New Course at Grand Cypress. His advice to everyone in the tournament was, "Stay out of the pot bunkers, watch out for the deep bunkers, and *don't* hit it in the Love Grass mounds. Those of you who have never played it before, GOOD LUCK!"

The New Course at Grand Cypress is both interesting and challenging; a different golfing experience. These 18 holes bring the number of golf holes to 45 at Grand Cypress Resort. The original 18 holes (North and South nines) were recently

Brian Bowles, Construction Superintendent, Palm Beach Polo Club

Note: Weed free newly planted turf . . . also pegging and rooting with safety of RegalStar.

RegalStar™

The Preferred
Herbicide From
Start To Finish

JB Branstrom, Golf Course Superintendent, Palm Beach Polo Club

Note: Weed free established turf

Because Regal Star™ does not prune roots, it has become the preferred product of turf managers from California to Miami to grow in all vegetatively planted warm season grasses. Use it right over the top at sprigging or row planting. No other herbicide can match the weed control while being gentle on new roots.

For unmatched benefits and results that are consistent on newly planted grass or established turf, use the most preferred, RegalStar.

As the sun sets on the beautiful Grand Cypress Golf Course, we start anticipating the 1989 Crowfoot Open.

voted into the Golf Digest Top 100 Golf Courses in the United States.

Everglades Chapter Captures the Crow

The Central Florida Chapter of FGCSA proved to be a most cordial host for The 1988 Crowfoot Open Golf Tournament. They even went so far as to relinquish their crown for the 2nd year, after 3 successive years as team winner.

The Everglades team of Jerry Redden, Mark Black, Richard Kaiser and Ron Richards won The 1988 Crow Foot Open by 5 shots over The Treasure Coast Chapter.

Scott Zakany won a match of cards

over Lee Bennett for Low Gross Super, after both men posted fine scores of 69's. Scott's win gives him a spot on The GCSAA Team for Anaheim in 1989.

Jim Ellison of Central Florida was the Low Net Super, by winning a match of cards over Richard (Dick) Lemmel.

In The Suppliers Division Dick Johnson won a match of cards over Dick Bessier for low gross, after both shot 70.

Bill Gordon won the Calloway Division of Suppliers, with Bill Buchanan and Jerry Porter finishing 2nd and 3rd.

Prizes won by contestants were TV's, VCR's, phones, Answering machines and

\$100.00 gift certificates uniquely engraved in metal medallions.

We are thankful for our Diamond and Gold tournament sponsors. They helped make this tournament successful. We urge you to patronize their businesses. Many thanks for the excellent job accomplished by the well organized Crowfoot Committee, the Grand Cypress Resort Staff, Central Chapter Hosts, Tom Alex the Golf course Superintendent and his fine golf course maintenance staff, Paul Celano the Director of Golf, Larry and Vilma Kamphaus, and many volunteers. The FGCSA members appreciate you all! ■

the Brouwer Trash-Pik™

Solve your litter collection problems, fast, economically.

The Trash-Pik™ is the new, innovative method for picking up litter at municipal locations, theme parks, airports, shopping malls, car parks and such places.

It is fast, efficient, easy to operate, economical and simple to service and maintain. The body is made of corrosion free, heavy-duty fibre-glass and the mechanical components are designed for rugged day-in day-out reliability.

The Trash-Pik™ will eliminate high labour costs. With one man doing the work of several, you benefit with fast pay back, in only months!

Some outstanding features:

- 18 h.p. two cylinder Kohler gas engine
- Closed loop hydraulic hydrostatic drive
- 200 degree nozzle operating arc
- Reverse air-flow to remove hose blockages or blow leaves or litter for easy pick-up
- The 8 cu.ft. litter container with bag tilts back for easy unloading
- Automotive type steering and controls
- Heavy-duty, corrosion free fibre-glass body

Call your Brouwer dealer for more information or a demonstration...TODAY.
