

The preemergence you want with the fertilizer your turf needs.

The reputation of Ronstar speaks for itself. On golf courses, it's the leading pre-emergence for control of goosegrass, crabgrass, *Poa annua* and other weeds.

Introducing
LESCO 5-10-17 Mini
with 0.95% Ronstar.®

But until now, no product combined the effectiveness of Ronstar with a mini-particle-size fertilizer specifically formulated for spring application. LESCO 5-10-17 Mini with 0.95% Ronstar changes all that.

With an analysis that's low on nitrogen and high on phosphorus and potassium, this new mini-particle-size product makes roots, stolons and rhizomes thrive by giving dormant or non-dormant turf a complete feeding that's perfect for spring application. This analysis promotes aggressive spring greenup and regrowth that make you and the course look good.

The preemergence you want combined with the fertilizer your turf needs is in stock now. Order today and take

advantage of the generous terms and discounts offered during the LESCO Early-Order Program.

To order, contact your LESCO sales representative or call (800) 825-3726 toll free.
