better stand of turf than we would have had.”

I asked Wise about the three logos on his shirt and their implication. “I can’t say enough about the communications and teamwork I have received from the members of the PGA,” Wise said. “They have listened to and respected my input and have kept me in the loop at all times. Marty Kavanaugh, Senior Director of PGA Golf Properties, and Bill Cioffoletti, Head Golf Professional have been just super to work with and it’s not unusual to find Jim Awtrey, CEO of the PGA of America, strolling into my office at 7:00 AM to see how things are going. It’s been a great experience. Jim is really proud of our maintenance facility and often shows it off to visitors before they see the clubhouse. I was able to work closely with the architect and make some changes. We have a built in recycling system. We don’t release any clippings or rinsate into the environment. In fact, the whole project received an environmental awareness award from Links magazine. While all this has been going on, I have also had the new courses in the Audubon Signature program and St. Lucie West in the ACSP Certification program.”

As for the media day itself, Kevin and I found ourselves not on the print media team, The Scribes, but rather on the electronic media team, The Mics, something to do with balancing the numbers on the teams. At any rate thanks to Kevin’s 76, the Mics drubbed the Scribes -69 to -31. As for me, well my game still needs lots of work, but I enjoyed the day and was pleased that *The Florida Green* had been invited to participate. If you get a chance, swing by and take a look. You will enjoy the whole facility and the experience.

1996 Poa Annua Classic offers respite in transition

Spring means transition. Spring means renovation. Spring means The Poa Annua Classic and The Naples Beach Club. Like the swallows returning annually to Capistrano, superintendents, suppliers and their wives and families return to Naples for the rites of spring passage and the beginning of the intense hot Florida growing season.

This Poa Annua was a chance to catch our breath and swap horror stories about the worst Florida winter in the 1990’s. It was an opportunity at the Spring Board Meeting for all the FGCSA Chapters to fine tune their understanding of the impending GCSAA affiliation process. It was a time to earn continuing education credits at the Friday Seminar. It was an excuse to limber up the rusty golf swing and raise

Either Protect Your Turf, Or Enlarge Your Sandtraps.

Mole crickets. Fireants. Cutworms. Sod webworms. Armyworms. Fleas. Chinch bugs. Wasps. Who knows what they could eventually do to your golf course? Exactly why you should protect all of your greenery with ORTHENE® Turf, Tree &

Ornamental Spray. It's easy. It's economical. It controls the broadest spectrum of tough turf pests. And best of all, it's a heck of a lot better than the alternative. For more information, call 1-800-89-VALENT. Professional Products Team

Now in easy-to-use Water Soluble Pouches.

education and research money in the Poa Annuia Classic and G. C. Horn Memorial Golf Tournaments on Saturday and Sunday. It was a time to relax with a libation and a sea breeze and watch the sun set in the Gulf without having to worry about irrigation schedules and equipment problems. It was good food, good people and good times once again!

Thanks are in order for the friendly folks at The Naples Beach Club who always make our stay a pleasure, and to Dick Naccarato and his staff for preparing the golf course to our liking. A big round of applause for Dale Walters and the Everglades Chapter for being gracious hosts once again. And a special thanks to Bruce Williams for taking time out from his Bob O' Link course in Chicago during a busy spring emerging from a tough winter to come bringing thanks from the GCSAA for Florida's contributions on the national level.

When the last putt drops and the last handshake pulls apart and the key turns in the door for the last time, we head home having celebrated another Poa Annuia together in pursuit of excellence in all that we do! Take care! See you next year!

UHS distributes proven turf and ornamental products from Zeneca.

REWARD®

- For aquatic and grounds maintenance weed control
- Fast-acting, non-restricted herbicide

Scimitar®

- Superior turf and ornamental insect control
- Available in WSP or new CS liquid
- Registered for golf course use

CRUSADE®

- Excellent grub and mole cricket control
- 99% dust-free formulation

FUSILADE®

- Fast-acting: Annual and perennial grasses stop growing within 48 hours of application
- Can be applied over-the-top for economical, trouble-free grass control

INTRODUCING
THE **SYSTEM** DESIGNED TO PUT
MOLE CRICKETS
WHERE THEY BELONG.

THE CHIPCO® CHOICE™ INSECT CONTROL SYSTEM. Forget the past. There has never been anything like the new CHIPCO® CHOICE™ Insect Control System for putting an end — once and for all — to one of the most destructive pests a golf course superintendent has to face: Mole crickets. The CHIPCO® CHOICE™ System utilizes an entirely new kind of chemistry that will deliver virtually 100% control of mole crickets for six full months. **WE GUARANTEE IT.** We're so confident that CHIPCO® CHOICE™ will keep your valuable turf free of damaging mole crickets that we'll make you an offer no one else would dare consider: A 100% satisfaction guarantee. If you're not completely satisfied with the mole cricket control you

GUARANTEED.

receive with the CHIPCO® CHOICE™ System, simply call our 1-800-334-9745 hot line number. We'll make sure your turf is properly protected for the full six months. **WE'LL EVEN APPLY IT FOR YOU.** Here's another unique feature of the CHIPCO® CHOICE™ Insect Control System: It's available only through CHOICE™-certified applicators who will use carefully calibrated slit application rigs designed to deliver this revolutionary new chemistry in the most precise and effective manner. So you don't have to worry about warehousing chemicals, calibrating equipment or timing applications. This year, put mole crickets where they belong with the satisfaction guaranteed control of the new CHIPCO® CHOICE™ System.

*“...in
pursuit
of
excellence
in all
that we
do!”*

*Yes boss, we do play golf at the Poa! Proceeds are used for education and turf research funding.

Out-of-towners soon became “sundowners” at the Naples Beach Club. Photo by Joel Jackson.

OVERSEEDING.

OVERSEEDING WITH PRIMO.

During overseeding, speed is the name of the game.

Primo® gives you a dramatically quicker transition by doing what it does best: slowing the growth of existing turf by 50 percent.

This makes existing turf less competitive, and allows more sunlight, oxygen,

and nutrients to reach the newly seeded grass.

Which means you get a faster stand and a higher rate of germination.

And since Primo is foliar absorbed, it has no effect on new seedlings.

So this year, be sure to use Primo. It's like turbo-charging your overseeding program.

USGA Green Section regional conferences draw more than 250

For over ten years, the USGA has been hosting one day educational conferences in Florida. This year, two conferences were held, one in Orlando on April 15th, and the other in Palm Beach Gardens on the April 18th. Over 250 golf course superintendents, club officials, golf professionals and industry representatives attended the conferences.

The morning session started off with Chris Hartwiger, USGA Green Section Agronomist discussing the Ups and Downs of Rolling Greens. Tony Zirpoli, USGA Regional Affairs Director, gave a talk in Orlando on the Amateur Status, while Mike Fallon with the National Golf Foundation, gave a talk in Palm Beach Gardens on Industry Trends in the Growing Game of Golf. Next, Dr. John Cisar with the University of Florida gave a talk on More of What We Have Learned About Pesticide Leaching. Darren Davis gave a very good update on the ACSP for Schools and encouraged other superintendents to get involved. Dr. Monica Elliott discussed Cultural Control of Turfgrass Diseases, and William Amick, Golf Course Architect wound up the morning session with a discussion on How to Properly Set

Darren Davis gave a very good update on the ACSP for Schools and encouraged other superintendents to get involved.

Up a Remodeling Improvement Program for Golf Courses.

After lunch, Dr. Kris Thoemke from Naples, led a discussion on Wildlife's Role in the Future of Golf. Steve Beeman, President of EcoShores, Inc., talked about

Aquascaping Your Golf Course, and the ever popular Whit Collins with the West Coast Employers Association, finished the day with What's Shaking in Labor Relations.
