

IF I CAN DO MY JOB  
IN THE SUMMER HEAT,  
YOUR HERBICIDE  
SHOULDN'T  
HAVE ANY  
EXCUSES.

**Celsius® can be used on the most sensitive grass.**

Take it from other lawn experts, Celsius takes post emergent weed control to a whole new level. Celsius controls over 120 weeds, especially the really tough ones like doveweed and Virginia buttonweed. And it's safe to use in summer temperatures on warm season turfgrass like St. Augustine, Centipede and Bermuda. Celsius works when and where you need it. For more information, visit [BackedbyBayer.com/Celsius](http://BackedbyBayer.com/Celsius).

**Celsius®**  
A HIGHER DEGREE OF WEED CONTROL
