

How to be a pioneer as well as entirely practical.

**7500**  
E-CUT Hybrid

The reel speed stays consistent to maintain ideal frequency of clip.

Quick Adjust 5 cutting units. Adjust height-of-cut in seconds.

Electric reel motors require no routine service.

Get ahead of the curve with hybrid fairway technology. Only from John Deere Golf.

**JOHN DEERE**  
GOLF

With the 7500 E-Cut Hybrid, you get a fairway mower that combines cutting edge technology and common sense. Hydraulic leaks in the reel circuit are a thing of the past. You can maintain it just like a regular mower. And you'll appreciate the lower decibels as well as saving on fuel.

There's never been a better time to put hybrid fairway technology to work for you. Demo a 7500E on your course or visit us at [JohnDeere.com/Golf](http://JohnDeere.com/Golf).

# HAPPY LANDINGS.

Jacobsen LF570™

Players who land on fairways cut by Jacobsen's LF570™ lightweight fairway mower will notice their ball sits on a very smooth, playable surface. The LF570 gives you the ability to lock in maximum mow and transport speeds – ensuring a consistent, quality cut, regardless of the operator. Your technicians will also enjoy the LF570's exclusive onboard diagnostics and maintenance-free wet parking brakes. For more happy landings on your course, demo the Jacobsen LF570 today.

# TIFEAGLE

## SOARS AT IBIS GOLF & C.C.

*"After two really dry, cold winters we started seeing some mutations in our existing bermudagrass greens. When it started to affect ball roll, we knew we had to do something. We tossed around MiniVerde and TifEagle and ultimately decided on TifEagle since it's such a genetically stable variety."*

*Matt Masemore-Director of Golf Course Maintenance  
Ibis Golf & Country Club  
West Palm Beach, FL*

You'll find TifEagle Bermudagrass on two of the three premier golf courses at the exclusive Ibis Golf and Country Club in West Palm Beach FL. The Legend Course, a signature Jack Nicklaus design, and the Heritage Course, designed by Jack Nicklaus II, were both converted to TifEagle in 2012. The Tradition Course, a Steve Nicklaus design, is scheduled for its TifEagle renovation this summer. Matt Masemore, Director of Golf Course Maintenance, is responsible for the management and upkeep of these three award-winning courses, and Matt was instrumental in the decision to go with TifEagle. "We were having some mutation and off-type issues with our existing ultradwarf greens and the newest was only 6 years old. It was beginning to affect ball roll on all three courses, so we knew playability would soon be a big

problem. We looked at a lot of different properties, some with MiniVerde and some with TifEagle, but ultimately decided on the TifEagle. It's a genetically stable variety that's proven itself going on 20 years now, and we felt it was the best choice for us. We also needed a grass that could recover quickly after handling a lot of traffic. So far our members love it. My maintenance staff does too, even though we're using a little more Primo and doing slightly more fertility." Take a tip from Matt Masemore. Whether you're renovating your existing greens or planning a brand new facility, insist on the best. Specify certified TifEagle Bermudagrass by name. You can sod it, sprig it or even no-till it under the right conditions.

For more info and a list of TifEagle growers, visit us at [www.tifeagle.com](http://www.tifeagle.com). Or call 706 552-4525.

# PRESTIGIOUS FAIRWAYS WILL HELP DRIVE MORE PLAY TO YOUR CLUB.

Ask Conrad Broussard, Director of Agronomy at St. James Plantation in Southport NC. Or Berry Collett, Director of Golf Maintenance for Sea Island's famous Retreat Course at St. Simons Island GA. Talk to Michael Thomas, Director of Golf Course Maintenance at the Arthur Hills-designed Sunset Course and Tom Fazio-designed Sunrise Course at the Country Club at Mirasol in Palm Beach Gardens FL. They will all tell you that their TifSport fairways give them a leg up on the competition. Serious golfers

prefer to play on championship-caliber fairways. It's more than just eye appeal. It's about playability. How the ball sits up in the fairway. And for you it's about manageability. TifSport has superior sod strength and improved traffic tolerance, so it recovers very quickly from injury. It has excellent color, texture, density and cold tolerance. What more could you and your maintenance crew ask for? TifSport Bermudagrass. It's one sure way to bring more play to your club.
