

## When Other Golf Cars Get Left Behind...

## Yamahas Stay Right On Course.

Yamaha knows the purchase price of your fleet is just the beginning of the cost of ownership. So we design in features that keep your rental time up and your operating costs down.

- Quiet and clean-running, our 4-stroke overhead valve engine accumulates carbon less easily. A 3-stage air filter locks out dirt, requiring less frequent service checks. Timing adjustments are unnecessary thanks to our Transistor Controlled Ignition system. Even our suggested maintenance schedule requires less downtime than the competition.
- All this adds up to more time on the course making you money, less time in the shop costing you money. So call 1-800-447-4700 for the Yamaha dealer nearest you. And see how easy it is to keep your fleet profits on course.

Better in the long run.

# We just eliminated your last excuse for buying a converted golf cart.

**Introducing the Cushman® GT-1.**  
**Suggested retail price: \$3,395.00\*.**

When you can have Cushman quality at a competitive price, there's no reason to accept second best.

The new Cushman GT-1 utility vehicle will outperform and outlast any converted golf cart on the market. Its frame and chassis are stronger and more durable. You'll find a bed made of 14-gauge steel instead of 16-gauge steel. One-inch axles instead of 3/4-inch axles.

And a proven Kohler industrial engine that's more reliable and easier to maintain.

When you need a utility vehicle that's been specifically designed for work instead of one that's been converted from play, contact your Cushman dealer for a GT-1 demonstration. Or call toll-free 1-800-228-4444 for more information today.

# Certain death for the dinosaurs.

**The new Jacobsen Tri-King 1684D makes heavy cumbersome 84" mowers things of the past.**

Jacobsen ushers in a new age in heavy-duty 84" triplex mowing with a truly lightweight, highly maneuverable package. So now you can say goodbye for good to those costly, one-ton monsters the competition turns out.

**Lightweight and compact**, this agile, rear-wheel steering machine maneuvers around trees and other obstacles in a hurry. A foot-controlled hydraulic lift with automatic reel shutoff makes cross-cutting fairways and striping sports fields quick and easy. Plus, the wide 10" overhang simplifies trimming around traps, while optional on-demand 3-wheel drive smoothes out tough hills. And the Jacobsen Tri-King maintains a productive mowing speed in 3-wheel drive, so it trims circles around bulky, sluggish would-be competitors.

**Simple, cool-running hydraulics** deliver exceptional control of cutting

frequency. This smooth, consistent power and a choice of 5- or 10-blade fixed or floating reels produce a uniform, carpet-like cut — even in dense, wet grass. Unlike heavier competitors, the 1684D's balanced, lightweight design and wide tires minimize turf compaction. And optional easy-on/easy-off grass catchers make clean-up a breeze.

**A liquid-cooled 16.5 hp diesel** provides plenty of power with longer life, simpler maintenance and better fuel economy.

**Or choose the 1671D**, a unique, durable 71" triplex with all the same quality features of the 1684D. Yet smaller reels cleanly cut tricky undulating terrain and those really tight spots.

Don't be saddled with a dinosaur of a triplex when you can have the advanced new 1684D. Ask your Jacobsen distributor for a demonstration today. Attractive lease and finance plans available.
