## Europe

*Continued from page 28*

per course with a clubhouse and maintenance facility.

He said Central Europe is a very exclusive market, and 90 percent can afford an upscale product.

"It's very difficult to get permitting for housing developments in France," he said, adding that Spain and Portugal are much easier because they are in a sunbelt market, with a lot of second homes.

Smith said that with the advent of the EEC, a lot of people will be able to move businesses to warmer climates, so there are now a lot of options on land being scooped up and waiting for that event.

England's Swan warned that while hundreds of courses are needed to fill the demand, the situation "is a worrying prospect as I recall only too well that in the early '70s when demand was high in my country we had some indifferent golf courses designed and built and irrigated; and since then those greenkeepers who have tried to maintain them, some well, some indifferently, some badly, have struggled because the basic concept and engineering was indifferent and defective."

He said the English Golf Union has formed a Golf Technical Committee comprised of experts in sports turf, ecology, environment, construction and design, and "it is our intent to attempt to look towards providing minimum standards and guidelines for performance in the provision of golf courses."

Europeans hope that with the EEC, all the countries can come together and do research to form information outlets similar to the National Golf Foundation in the United States.

Jan Beljan is a designer with Fazio Golf Course Designers, Inc.

## THE AMERICAN SOCIETY OF GOLF COURSE ARCHITECTS

is comprised of leading golf course designers in the U.S. and Canada. These golf course architects, who are involved in the design of new courses and renovation of older courses, bring years of experience to every project.

To assist those interested in building a new course or remodeling an existing one, the Society distributes a variety of publications. These include:

- **Master Planning: The Vital First Steps In Golf Course Construction**
- **Planning The Real Estate Development Golf Course**
- **Planning The Municipal Golf Course**
- **Request For Proposal**

To obtain one of these, send a stamped, self-addressed business size envelope to the Society, specifying the publication needed.

- **The Evolution Of The Modern Green (\$5)**
- **Creating A Two Tee System For Women (\$5)**

For these two illustrated brochures, send a check to cover the number of copies you are ordering.

**American Society of Golf Course Architects**
