

Thanks for your input and support

October marks our eighth issue and I'd like to offer a special thanks to our readers who have offered many encouraging words and thoughts over the last few months. I'd like to share some of these comments with you:

"The best thing to happen to golf courses since the triplex greens mower."

J.M. Fulmer, superintendent
Houndslake Country Club
Aiken, S.C.

"Excellent publication... Could

become the modern version of Golfdom... a much needed missing link."

Paul Weiss, superintendent
Blue Ridge Golf Club
Palmerton, Pa.

"Your publication is tops for golf course planning and development professionals."

Dan P. Gray, president
The Dan Gray Co.
Myrtle Beach, S.C.

"Golf Course News is great, outstanding, the missing link."
Robert J. Meteja, superintendent
Fox Hills Country Club

Whitmore Lk., Mich.

"Great! In-depth insight into timely issues concerning golf courses... Very helpful in my business."

Rodney H. Noel, superintendent
Natchez Corp
Daniels, W.Va.

"Best I ever saw cover to cover."

Ken Kavanaugh, architect
Golf Course Design
Tucson, Ariz.

"Most complete coverage of golf course news of any publication."

Great."

John J. Lisk, superintendent
Oswego Country Club
Oswego, N.Y.

The preceding comments appear on some of the thousands of reader response cards we've received. We'd like to hear your thoughts on Golf Course News. Simply fill out the reply card that appears toward the back of this issue. Thanks for your readership!

Sincerely,
Charles E. von Brecht

Palmetto Dunes CC, Hilton Head, SC

Beauty and the Best.

If you want your golf course to sparkle with the beauty and playability golfers expect, then you need the best irrigation system you can find: TORO. Palmetto Dunes chose Toro.

Toro control systems help you develop superior turfgrass and save money at the same time. Toro sprinkler heads, with low precipitation rates, apply water more effectively and more efficiently, taking you another step toward better turfgrass, while saving you water, energy and money.

When Toro created the first fully automatic, ET-driven, computerized control system (Network 8000), it took irrigation control a giant stride forward.

Now, with perfection of the new "4.0" software package, Toro has taken another step ahead of the rest, and you enjoy these four important extra advantages:

1. Flow Control—The central controller schedules all irrigation in user-specified sequence while maintaining sprinkler flow demand within maximum efficiency ranges of the pump station. Result: lowest cost-per-gallon.

2. Concatenation—Quite simply, this means your satellite programs are run in the most efficient order. In other words, Toro delivers perfect linkage, again saving you money.

3. Sequential Multi-Manual—Toro also gives you the flexibility to program from the satellites for such vital functions as removing frost or cooling turf. In effect, it can lengthen your playing day.

4. Remote Activation of Central System through Satellites—Up to 15 functions stored in the central may be initiated for the *whole system* from any one satellite on your course.

When you combine the ultimate benefits of a Toro controller with the efficiency of Toro low-precipitation rotary sprinklers, you have today's most advanced and most cost-effective total irrigation system.

The Toro Company, Irrigation Division,
