FREE... Turfgrass Guide Specifically for Golf Courses

What turfgrasses would work best on your golf course? The right choice now can make a big difference later. **The Golf Course Professional's Guide to Turfgrass Selection** will help you decide.

The **free Guide** is a quick, easy reference arranged by geographical areas. It suggests turfgrass species, and lists the varieties and seeding rates best suited to your locale. A separate section on southern winter overseeding details new trends, listing the advantages and drawbacks of various species.

Get your free copy by contacting Lofts Seed Inc., Research Dept., Chimney Rock Road, Bound Brook, NJ 08805. (201) 560-1590.

The chart (below) shows all golf course facilities opened or under development during 1989 in different regions of the United States.

It is divided into four columns — those opened in 1989; those under construction; those in the planning stages; and total projects.

The South Atlantic was easily the busiest region with 30 percent of all projects. The East North Central was a distant second with slightly less than 18 percent.

The figures were provided by the National Golf Foundation.

1989 Golf Facility/Course Development Projects by Region*
(Courses in parentheses)

Region	Status		
	Open	Under Construction	In Planning
New England	14	24	41
Middle Atlantic	9	34	55
East North Central	55 (56)	85	98
West North Central	27	42	49
South Atlantic	100 (102)	131	176
East South Central	17	35	20
West South Central	18	24	21
Mountain	29	36	39
Pacific	15	44	98
(Alaska)	0	0	0
(Hawaii)	3	8	6
Total	287 (290)	463	603

Buckner Cam Rotor Valve-in-Head . . .

Products proven by time brought together with today's technology.

- B** The same innovative pressure regulating device made specifically for water
 - B** The same proven all bronze cam drive internal
 - B** The same dependable piston valve principle
- * Plus *
- B** Heavy duty spring retract and sand-wiper seal
 - B** Ability to manually turn-off or turn-on a single rotor in a block system
 - B** Easy snap ring removal of internal for service
 - B** Fulfills water management needs of:
 - low pressure
 - superior uniformity of coverage
 - low water consumption
