

Discover How A Few Chips Can Perfect Your Drive.

Introducing a triumph of modern electronics. The Fleet Classic. It's the skillful blend of Yamaha's past engineering achievements and new technologies. • For instance,

the Fleet Classic's better battery power economy is the result of the Yamaha *PaceSetter* Solid-State Speed Controller that comes standard.

Couple it with our breakthrough *UltraPath* 3-Link Rear Suspension and the Fleet Classic accelerates smoothly and takes to the path

with unsurpassed grace. • A larger passenger area leaves more room

for plush comforts like wide cushioned seats and expanded legroom. The Fleet Classic's stylish body is painted and composed of a rugged high-grade *Metton* material. • Need final confirmation you've

selected the best? Look no further than the nameplate. Because it says Yamaha and that means your investment will pay off round after round, year after year. • Call 1-800-447-4700 for a dealer near you.

TORO IS ABOUT TO BLOW YOUR

Every year the algae returns. And the headaches return. Until now, there has been no permanent, effective solution.

A toxic waste dump.

Chemicals are nothing more than a temporary measure. Copper Sulfate is expensive. And the heavy metal eventually sinks to the bottom, leaving a hazardous and toxic waste.

Downed irrigation systems.

All algae are born with one mission: to shut down your irrigation system as thoroughly as possible. And cost you a fortune in wasted

Before installation

30 days after installation

man-hours attending to clogged filters, valves and screens. Fouled sprinklers. Blown irrigation pipes. And irate club members who can't understand how you could allow brown spots on the fairways. Algae mats on the water. And such a stench in the air!

The Toro AIRE-O₂ aeration system annihilates algae.

Toro, the industry leader in water resources management, brings you the AIRE-O₂ aerator. A totally effective solution based on a scientific, ecological understanding of the problem and its cause.

ALGAE PROBLEMS AWAY.

Toro AIRE-O₂ unit

As ponds age, oxygen is depleted. Algae proliferate simply because their natural enemies suffocate. Fertilizer runoff and effluent water only worsen this anaerobic condition.

Circulation is the key.

By powerfully blowing oxygen horizontally into your pond, the AIRE-O₂ aerator promotes a steady current that breaks up stagnant water, increases the oxygen level, and disperses it throughout the pond. And

AIRE-O₂ system's patented flow linkage process promotes circulation throughout the entire pond

your pond water becomes crystal clear. Naturally. With our patented flow linkage process, the AIRE-O₂ system can oxygenate and circulate any pond—no matter what its configuration—eliminating all places where algae may hide.

And that means we can turn your eyesore into a thing of beauty in no time. For all time.

Excellence in Irrigation®

Dollar Spot

Leaf Spots

The Most Effective, Longest-Lasting Solution.

In university test after test, and on course after course, Vorlan® has proven to be the most effective Dollar Spot and Leaf Spots fungicide available.

It's the result of Vorlan's unique chemistry, making it both a curative and longer lasting preventative. One application insures

disease-free turf for up to 28 days!

Vorlan is also more economical. The cost-in-use is lower, because it lasts longer.

And Vorlan is easier to use. You can apply it at the same low rate for both Dollar Spot and Leaf Spots control. And it's available in both liquid flowable and wettable powder forms.

Contact your Grace-Sierra distributor today and order Vorlan. Or, call us toll-free at 1-800-492-8255.

Because nobody can help you through the tough spots like we can.

TerraShield®
100% Polyester
Greens Blanket

Unretouched photo taken the day the TerraShield Greens Blankets were removed at Crystal Lake Country Club

“When our TerraShield® Covers came off this spring, the greens looked like they’d been painted.”

Craig A. Marfia CGCS, Golf Course Superintendent Crystal Lake Country Club, Crystal Lake, Illinois reports on his results with Warren's TerraShield protective blankets for greens and tees.

Craig Marfia CGCS

“Probably the biggest reason we use TerraShield is the dramatic results it gives us. When our TerraShield covers came off this spring, the greens looked like they had been painted. It took the turf on our fairways nearly a month and a half to match our greens.

“In addition to earlier root development, the overall improvement in turf density with TerraShield is almost unbelievable.

“TerraShield gave our greens the added stress-resistance they needed to survive the surprise 3-inches of snow we got in May. And, it's helping them withstand the heavy play we get during our short season (up to 30,000 rounds in 9 months).

“This fall every green on our course will be covered with TerraShield.”

Every spring, Warren's TerraShield® proves once again that it is, by far, the best greens blanket in the business.

Best for winter protection – because it gives you up to 3 times more protective blanket material than you get with thin plastic films, flimsy sheets, or lightweight fabrics.

Best for wind protection – because TerraShield is a 100% polyester non-woven blanket that does a better job keeping the cold, dry winds of winter away from vulnerable grass crowns.

Best for early spring green-up in both warm and cool season turf – because it lets the sun's rays and warmth pass through. Root development gets underway earlier so turf is more dense, healthier, and ready for full play sooner.

(Before changing to TerraShield, Crystal Lake Country Club had experimented with another major brand of greens covers but found the turf under those covers got too warm and when they were removed in the spring, the greens couldn't take the shock.)

You can have TerraShield Greens Blankets ready for your course in plenty of time for installation this fall ***if you act now!***

PRODUCTS
UNTIL SEPTEMBER 1.

- Lightest footprint, best weight distribution to minimize compaction.
- Exclusive nine blade reels with full-floating, articulated steering set the standard in fine greens mowing.
- Power backlapping standard.
- Patented Turf Groomer® for truer, healthier greens.
- New, large, easy-to-use grass catchers.
- Choose 16½ HP diesel or 16 HP gas engine.

A superior quality of cut makes the Greens King IV® the most popular greens mower in the world. With the lightest footprint in the industry, the Greens King has the best weight distribution between all three wheels to minimize compaction.

Exclusive Features Are Standard

Exclusive, fully floating, pivoting reels steer through turns without scuffing or marking on the clean-up pass. Individual reel control and power backlapping are standard to keep reels sharp with less work. The Jacobsen quality reel sets the standard for fine greens mowing. All this at a competitive price.

New, large capacity grass catchers are easier to attach and remove. For maximum durability and

economy, choose the 16½ HP diesel with power steering or choose the 16 HP gas engine.

Greens King performance with the ultimate exclusive: Turf Groomer.®

Jacobsen's new, patented Turf Groomer greens conditioner gives a smoother, truer putting surface without grain. The unique design increases green speeds up to 25% without lowering height of cut, producing truer and healthier greens.

Now heavier, larger diameter rollers, higher side frame clearance and improved durability make the Turf Groomer better than ever. Quick-lift levers let you raise the Turf Groomer ¾" to skip conditioning.

See why the King reigns supreme. Contact your Jacobsen distributor for a demonstration.
