

## **FLEXBRUSH**

**There's never been a  
faster, better, easier way  
to top dress greens!**

Now you can turn your Toro or Jacobsen greens mower into the finest top dress brushing system ever invented, with FLEXBRUSH from Standard Golf.

FLEXBRUSH enables you to save time, while avoiding unnecessary damage to your greens. It's actually a set of three brushes that follow contours and undulations like no dragging method can, and it's excellent for brushing after deep tine aeration. Plus, it installs quickly and easily.

For more information, contact your nearby authorized Standard Golf distributor.

# AURORA / SHADOW / BIGHORN

## BRIGHT AND BEAUTIFUL IN THE SHADE

**Aurora Hard Fescue, Shadow Chewings Fescue and Bighorn Sheep Fescue . . .**  
*three shade and drought tolerant fine fescues for golf courses, parks, home lawns, roadsides and reclamation areas.*

Aurora, Shadow and Bighorn have consistently topped fine fescue turf trials, and have years of 'experience' in low maintenance and high percentage shade areas.

These fescues mix well with perennial ryegrasses and Kentucky bluegrasses for use in sod production and golf courses; Aurora and Bighorn in the roughs and Shadow on the fairways.

When seeded in a monostand, our fescues will help give a course the 'Scottish links' look around tees

and in roughs, and blue-grey Bighorn adds another color dimension to course design.

Low growing Aurora, Shadow and even shorter growing Bighorn require less mowing, making them ideal for roadsides and other low maintenance areas.

All-in-all, when your turf area is in the shade, where water, nutrients and maintenance are costly, it'll pay you to look into Aurora, Shadow and Bighorn . . . the good look in fine fescues.

Aurora, Shadow and Bighorn qualify for Turf-Seed's blue tag incentive program. Write us or call your seed distributor for details.

# Certain death for the dinosaurs.

The new Jacobsen Tri-King 1684D makes heavy cumbersome 84" mowers things of the past.

Jacobsen ushers in a new age in heavy-duty 84" triplex mowing with a truly lightweight, highly maneuverable package. So now you can say goodbye for good to those costly, one-ton monsters the competition turns out.

**Lightweight and compact**, this agile, rear-wheel steering machine maneuvers around trees and other obstacles in a hurry. A foot-controlled hydraulic lift with automatic reel shutoff makes cross-cutting fairways and striping sports fields quick and easy. Plus, the wide 10" overhang simplifies trimming around traps, while optional on-demand 3-wheel drive smoothes out tough hills. And the Jacobsen Tri-King maintains a productive mowing speed in 3-wheel drive, so it trims circles around bulky, sluggish would-be competitors.

**Simple, cool-running hydraulics** deliver exceptional control of cutting

frequency. This smooth, consistent power and a choice of 5- or 10-blade fixed or floating reels produce a uniform, carpet-like cut — even in dense, wet grass. Unlike heavier competitors, the 1684D's balanced, lightweight design and wide tires minimize turf compaction. And optional easy-on/easy-off grass catchers make clean-up a breeze.

**A liquid-cooled 16.5 hp diesel** provides plenty of power with longer life, simpler maintenance and better fuel economy.

**Or choose the 1671D**, a unique, durable 71" triplex with all the same quality features of the 1684D. Yet smaller reels cleanly cut tricky undulating terrain and those really tight spots.

Don't be saddled with a dinosaur of a triplex when you can have the advanced new 1684D. Ask your Jacobsen distributor for a demonstration today. Attractive lease and finance plans available.
