

Boring guide released by Ditch Witch

A concise guide to the applications and advantages of the many types of underground boring equipment available today has been published by Ditch Witch.

The 16-page, illustrated Ditch Witch Trenchless Technology Applications Guide gives an objective look at extended-range guided boring systems, rod pushers, impact muling tools, augers and fluid-assisted boring systems.

These boring systems are explained and their advantages and disadvantages compared with other trenchless technologies.

The guide is available by contacting The Charles Machine Works, Inc., P.O. Box 66, Perry, Okla. 73077 or calling (800) 654-6481. Circle No 252

Saver the chemicals can be place exactly where they will be most effective.

"We placed it too deep this year but with some modifications we can put it exactly where we want it," Niemczyk said.

He said his research is not contractually tied to Rain Saver and that he has also spoken with Cushman-Ryan and Olathe representatives.

"Anybody who can design a piece of equipment to accomplish this objective — placing materials beneath the surface and leaving little or nothing on the surface — I'm interested in talking to," he said.

The Rain Saver equipment was designed for polymers, and the company loaned the Ohio State researchers a piece of equipment for their project.

Niemczyk said he has been working with Cushman-Ryan on an overseeder "to see how well we can subsurface place granular materials. There are some shortcomings in regard to placing the material that now we've talked with Cushman-Ryan about and if they are interested they may want to modify their equipment."

"I'm a biologist (not manufacturer). If someone comes along with a piece of equipment they think may do the job, I'm willing to test it," he added. "And until I have someone else's equipment I'm going to use the equipment I have now."

Metropolitan prints idea book

The new eight-page, full-color "Ceramic Tile Idea Book" from Metropolitan Ceramics details the design versatility of indoor/outdoor ceramic tile.

The literature is complete with residential and commercial tile installation photos, pattern ideas, color swatches, performance specifications, special trim shapes, a copy of the company's warranty installation and maintenance recommendations, and a sample architectural specification.

Form more information contact Metropolitan Ceramics, P.O. Box 9240, Canton, Ohio 44711; 216-484-4876. Circle No 253

NEW LITERATURE

'Make Money Mowing Grass' book enters third printing

The third edition of the handbook "How To Earn at Least \$60 Per Hour Mowing Grass . . . And Still Be the Low Bidder" was printed in December.

Author Roy H. Ruebenstahl Jr. has been a mowing contractor for 15 years.

His 193-page booklet contains information on how to run a more

profitable business by eliminating the peaks and valleys in hourly profits and avoiding pricing a job too low.

The postage paid price is \$29.95 and can be paid by check or money order sent to GOMC, 10490 Bluegrass Parkway, Louisville, Ky. 40299.

The Ultimate Turf Team

CORE MASTER 12 Fits All Tractors

The Ultimate Aerator

GreenCare has combined high-tech engineering and simple design to produce the strongest, most versatile and efficient aerator on the market today. Vertical aeration combined with variable pattern, variable depth and a variety of tine types and sizes provide today's Turf Specialists with the tool they need to tailor aeration to their requirements.

Core Collection System

- Simply attaches to rear of CoreMaster.
- Auto-reset on next aeration pass.
- Removes cores as you aerate and automatically dumps cores at the end of each run.

- One man can do the work of four.
- No other expensive machines or operators required.
- On golf greens, play can continue during aeration.

SPREAD MASTER

The Ultimate Topdresser

GreenCare engineering leads the way in Turf Equipment Innovation again:

- All hydraulic drive.
- Tubular steel and zinc annealed sheet metal construction.
- Roller drum eliminates conveyor belt problems.
- Internal rotating baffle prevents "material surge" at the start of each run.
- Independent control of brush speed, drum rotation and gate opening provide precise rate of application.
- Flared top for easy filling with front-end loader.
