

# Hyundai. Driven to perfection.

Let's face it, most golf cars look the same. At Hyundai, we focused our resources and research on high performance, low maintenance and longer life. Hyundai Golf Cars were not created in a vacuum, but rather from lessons learned on the golf course. Round after round after round, Hyundais were driven to perfection.

That's why we're proud to introduce the most innovative golf cars on the market

today. Our efficient, powerful electric and gas golf cars ensure continuous, trouble-free operation.

A unique suspension system and a wider wheel base smooth out any terrain and offer a much safer, more comfortable ride.

A body constructed of lightweight impact resistant polypropylene and a frame made with high tensile tubular

steel and electrostatically applied paint keep maintenance to a minimum.

More leg room, thickly padded seats, newly designed drink cup holders and spacious storage compartments take care of all the creature comforts.

And yes, Hyundai Golf Cars look great too, especially on the bottom line. A lasting investment that will make a lasting impression on your profit picture. Now that's perfection.

# The price you pay for waiting.

New Cushman® GA60 with Turf-Truckster®

# \$21,900\*

If you waited for the new Cushman GA60 large area aerator, your patience is about to be well rewarded.

The GA60 has proven to be the most effective reciprocating fairway aerator available. Features such as twin GA30 aerating heads, its own Cushman 327 liquid-cooled power source, a unique 5th wheel configuration, and an exclusive ground speed governor place the GA60 well ahead of the competition in terms of technology and performance.

It also has a price tag that will save you thousands of dollars if you act now. Order before April 1, 1990, (for delivery this year), and you can own a GA60 *plus* a Cushman 222-powered Turf-Truckster at the introductory price of \$21,900, or a GA60 alone for just

\$15,400.\* We are also offering an exceptional leasing program with up to 6 months deferred payment.

Nothing can deliver greens-caliber aeration over a larger area for as little money as the new Cushman GA60. It will definitely be worth your wait in gold. For all the details, contact your Cushman dealer.

# Certain death for the dinosaurs.

**The new Jacobsen Tri-King 1684D makes heavy cumbersome 84" mowers things of the past.**

Jacobsen ushers in a new age in heavy-duty 84" triplex mowing with a truly lightweight, highly maneuverable package. So now you can say goodbye for good to those costly, one-ton monsters the competition turns out.

**Lightweight and compact**, this agile, rear-wheel steering machine maneuvers around trees and other obstacles in a hurry. A foot-controlled hydraulic lift with automatic reel shutoff makes cross-cutting fairways and striping sports fields quick and easy. Plus, the wide 10" overhang simplifies trimming around traps, while optional on-demand 3-wheel drive smoothes out tough hills. And the Jacobsen Tri-King maintains a productive mowing speed in 3-wheel drive, so it trims circles around bulky, sluggish would-be competitors.

**Simple, cool-running hydraulics** deliver exceptional control of cutting

frequency. This smooth, consistent power and a choice of 5- or 10-blade fixed or floating reels produce a uniform, carpet-like cut — even in dense, wet grass. Unlike heavier competitors, the 1684D's balanced, lightweight design and wide tires minimize turf compaction. And optional easy-on/easy-off grass catchers make clean-up a breeze.

**A liquid-cooled 16.5 hp diesel** provides plenty of power with longer life, simpler maintenance and better fuel economy.

**Or choose the 1671D**, a unique, durable 71" triplex with all the same quality features of the 1684D. Yet smaller reels cleanly cut tricky undulating terrain and those really tight spots.

Don't be saddled with a dinosaur of a triplex when you can have the advanced new 1684D. Ask your Jacobsen distributor for a demonstration today. Attractive lease and finance plans available.
