

Why does the competition shrink from a side-by-side comparison to the Cushman® Runabout?

Why? Because the Cushman® Runabout gives you more payload and more power to do more jobs for more years. And at \$5,220*, no other utility vehicle can match its blend of value and performance.

It's that simple.

The proven, Cushman 222 overhead valve engine provides greater displacement for more torque and horsepower in the critical RPM range required for turf applications. A beefier, boxed-channel frame of carbon steel accommodates heavier implements and a one-ton payload.

The heavy-duty Runabout is more maneuverable. More durable. And it's backed by the industry's finest network of dealer service.

When a light utility vehicle isn't enough, and a full-function Cushman® Turf-Truckster™ is more than you need, the Cushman Runabout stands head and shoulders above the rest. Contact your Cushman dealer for a convincing demonstration, or call toll-free 1-800-228-4444 for more information today.

The Carryall II® is the registered name of Club Car®. The Hijet® Cut-A-Way is a registered trademark of Daihatsu. The GXT 800 is a product of E-Z-Go®, a Division of Textron Inc.

We just eliminated your last excuse for buying a converted golf cart.

**Introducing the Cushman® GT-1.
Suggested retail price: \$3,564.00*.**

When you can have Cushman quality at a competitive price, there's no reason to accept second best.

The new Cushman GT-1 utility vehicle will outperform and outlast any converted golf cart on the market. Its frame and chassis are stronger and more durable. You'll find a bed

made of 14-gauge steel instead of 16-gauge steel. One-inch axles instead of 3/4-inch axles. And a proven Kohler industrial engine that's more reliable and easier to maintain.

When you need a utility vehicle that's been specifically designed for work instead of one that's been converted from play, contact your Cushman dealer for a GT-1 demonstration. Or call toll-free 1-800-228-4444 for more information today.

Gold Canyon Golf Club and Resort

THE THREE BEST DRIVES IN GOLF TODAY.

For nearly two decades, Melex golf cars have been out-driving the competition, in comfort as well as performance. Now the Melex line is a threesome, making Melex the natural choice for any course.

At the top of the line is the Model 412. Its sleek aerodynamic design gives it sportscar-like styling, while a state-of-the-art speed control system allows the motor to draw only the power it needs at any given speed. The result is a far smoother ride, 25% more range on a single charge, and extended battery life.

The Model 252 and the 3-wheel 152 have

proven themselves to be reliable drives for many thousands of golfers. Both models feature a brake system that's virtually maintenance-free, an efficient, economical electrical system, and super-strong front suspension.

All Melex golf cars offer the competition's "luxury options" as standard features. These are the little touches that keep your golfers happy. Best of all, Melex golf cars are built to drive for distance. They're a lasting investment, year after year.

Now it's easier to make your greens come true.

We improved the only true Greens Conditioner.

No one else offers the patented features of the Jacobsen Turf Groomer™ greens conditioner. And now, we improved on the best. We did it by making the Turf Groomer easier to use and more durable. And that makes a big difference when you've got a lot of ground to cover.

The improvements begin up front. The exclusive front roller has a larger diameter for reduced rolling resistance, higher side frame clearance and improved durability. It works even better to "pucker up" horizontal runners and plant leaves, readying them for clipping. And now Jacobsen offers two blade spacings: the standard .280" for most green applications, and an optional .500" which works well where nearby traps have coarse grain sand.

The Turf Groomer's larger, thicker, six point knife blades are even stronger for longer life.

They rotate *through* the slots in the front roller, cutting horizontal runners and cultivating strong, erect grass plants.

A quick up/down blade adjuster has four positions in 1/8" increments so you can condition each green exactly the way you want. Or, you can raise the blades to skip grooming. And a Micro Depth Adjustment dial lets you fine tune cutting heights by increments of .007" without tools.

Every Turf Groomer greens conditioner comes with a sealed aluminum drive housing to prevent grass, debris and moisture build-up in the heavy-duty 1" belt drive system.

For faster, truer putting and healthier, hardier greens, look to the new Jacobsen Turf Groomer. For a free demonstration, contact your Jacobsen distributor.

Or contact Jacobsen Division of Textron Inc., Racine, WI 53403.

Now it's easier to make your greens come true.
