## Finally, a machine designed for courses that have their ups and downs.

Every course has its ups and downs. Now there's a machine designed to effortlessly mow them. No more hand mowing those steep inclines. Turftrak's powerful full-time 4WD and a two speed transaxle provide superb performance on the toughest grades. And the Turftrak's articulated frame allows the operator to follow every contour with a smooth even cut. Best of all, you can add over 15 different attachments. From rotary mower to blower to triplex reels, without tools. Never before has there been so much power behind so much versatility. And now you can purchase a Turftrak and make no payments until March 1, 1991. Ask your dealer for details, or call us at (414) 699-2000.
