

It's No Longer Fair To Compare. Introducing Fleet Classic.

It's first class transportation. And, thanks again to Yamaha innovation, the new Fleet Classic is the first in a class by itself. • The Fleet Classic's breakthrough design features the Yamaha UltraPath 3-Link Rear Suspension that delivers a remarkably smooth ride. Choose the electric model and Yamaha's PaceSetter Solid-State Speed Controller comes standard, making it the most economical car of its kind. The gas model holds up to the rigors of more rounds because it's powered by our proven OHV 4-stroke engine, designed exclusively for golf cars. • However, the Fleet Classic's distinctions extend beyond unmatched performance. Its high-grade painted *Metton* body is as stylish as it is rugged. Plush wide seats and generous legroom add to the passenger comforts. • So once more, Yamaha's turned golf car luxuries into standards. But nobody ever said we had to play fair. Superior fairway mowing.
In head-to-head comparisons, the LF-100 delivered superior fairway mowing, in all kinds of grasses.

It starts with exclusive Jacobsen heavy-section, 22" reels. They stand up to challenging fairway conditions and follow ground contours closely for a smooth, manicured cut at production mowing speeds of more than 5 mph.

Exclusive down-pressure system.
For the ultimate in cutting performance, add the

unique, dual-spring down pressure system. It puts the pressure at the rear rollers, where it's needed, to show off your fairways' best features.

Lightest footprint.
The LF-100 has the lightest footprint in the industry. It delivers minimal compaction even on the

softest fairways.

Prove it to yourself. Contact a Jacobsen distributor for a demonstration on your course against any fairway mower. Let the LF-100 give you and your fairways a superiority complex.
