

## NEW PRODUCTS

### Broken risers no problem

Hendrickson Bros. new Fld500 Break Away Flow Limiting Device retains the operation of the irrigation system even in the event of a broken riser.

Easily installed at the base of any standard half-inch riser, the Fld500 incorporates Hendrickson's patented flow control to reduce the water loss while retaining the system line pressure.

Construction is of high-strength ABS with an engineered break point that will withstand a maximum of 15 pounds of pressure applied to the top 12-inch riser.

For more information, contact Don Hendrickson, Hendrickson Bros., 2931 Lester Ave., Corona, Calif. 91719 or call 714-737-6822. **Circle No. 301**

### Vandal-free system unveiled

A complete vandal and corrosion-resistant system for irrigation equipment is being offered by Hydro-Scape Products, Inc. of San Diego, Calif.

The Hydro-Safe Controller Assembly comes with many pre-wired options such as a master valve suitable for two controllers, a pump start relay and a bypass assembly for moisture sensing, rain check devices, radio remote control and other specially requested features.

The assembly is made from 14-gauge stainless steel with a unique safety latch, special louvers, concealed hinges and slope top design to assure vandal and corrosion resistance.

For more information call 619-560-6611. **Circle No. 306**

### Hunter making new sprinklers

Hunter Industries has introduced two new, gear-driven rotary sprinklers with adjustable arcs, the I-40 ADS and I-25 ADS.

The new adjustable arc feature allows the installer to set the arc anywhere from 40 to 360 degrees for more efficient irrigation with less water. For 360-degree coverage, both sprinklers are available as fixed, full-circle models.

The I-40 ADS is a moderate-to-heavy capacity sprinkler with five interchangeable nozzles that vary the discharge rate from 7 to 25.3 gallons per minute. It covers a radius of 45 to 68 feet.

The I-25 ADS is a moderate capacity model with eight interchangeable nozzles that vary the discharge rate from 2.9 to 17.3 GPM. It covers a radius of 37 to 60 feet.

For more information contact Hunter Industries at 619-744-5240. **Circle No. 303**

### Amiad unveils filter

Amiad U.S.A. Inc. has unveiled an advanced three-inch plastic filter with flow rates up to 220 gallons per minute.

Highly adaptable for different types of water filtration, the new filter accommodates either a grooved disc element or stainless steel screen cylinder. These interchangeable element types offer a wide range of filtration degrees to suit different requirements.

The new filters can be installed as an in-line unit or in a 90-degree angle. Using the disc element, it is possible to install with one inlet and two outlets. They are available with three-inch flanges.

The filters feature high particle retention with a large filter area/volume to allow longer intervals between cleaning.

For more information, contact Amiad U.S.A., Inc., P.O. Box A, Calif. 91337 or call 818-781-4055. **Circle No. 304**

Greensboro, NC 27427**

### ACCU-GAGE

Accu-gage is a precision measuring instrument for making highly accurate height-of-cut adjustments on greensmowers or other precision mowers.

#### —FEATURES—

- Adjustments can be made with the gage on the mower. Simply read the gage while turning the adjusting knob.
- Measurements are made at the front edge of the bedknife regardless of bedknife wear.
- Eliminates the inaccurate "feel" method of old-type adjusting bars.
- Available in 15", 18" and 24" bars.

For more information on this and other precision tools call Toll Free: **1-800-253-2112** / In Michigan call Collect: 313-429-9571
