

Destroy the evidence or suffer the consequences.

The Cushman® Core Destroyer™ is the only effective means of providing quality play soon after fairway aeration. Use anything else and you'll have unhappy golfers on your hands. If you're going to aerate, do the whole job right. Get a Cushman Core Destroyer and *totally* pulverize cores at up to 6 mph.

Comes with FREE mowing deck. Order a Cushman Core Destroyer and a liquid-cooled gas or diesel Front Line tractor before September 30, 1990, and

you can have your choice of a 60" or 72" mowing deck free! It's the perfect way to get maximum mileage out of a Front Line tractor that's not afraid to go head-to-head with anything else on the market. For all the facts and a convincing demonstration, contact your Cushman dealer or call toll-free 1-800-228-4444 today.

CUSHMAN
BUILT TO LAST

Dollar Spot

Leaf Spots

The Most Effective, Longest-Lasting Solution.

In university test after test, and on course after course, Vorlan® has proven to be the most effective Dollar Spot and Leaf Spots fungicide available.

It's the result of Vorlan's unique chemistry, making it both a curative and longer lasting preventative. One application insures

disease-free turf for up to 28 days!

Vorlan is also more economical. The cost-in-use is lower, because it lasts longer.

And Vorlan is easier to use. You can apply it at the same low rate for both Dollar Spot and Leaf Spots control. And it's available in both liquid flowable and wettable powder forms.

Contact your Grace-Sierra distributor today and order Vorlan. Or, call us toll-free at 1-800-492-8255.

Because nobody can help you through the tough spots like we can.

TerraShield®
100% Polyester
Greens Blanket

Unretouched photo taken the day the TerraShield Greens Blankets were removed at Crystal Lake Country Club

“When our TerraShield® Covers came off this spring, the greens looked like they’d been painted.”

Craig A. Marfia CGCS, Golf Course Superintendent Crystal Lake Country Club, Crystal Lake, Illinois reports on his results with Warren's TerraShield protective blankets for greens and tees.

Craig Marfia CGCS

“Probably the biggest reason we use TerraShield is the dramatic results it gives us. When our TerraShield covers came off this spring, the greens looked like they had been painted. It took the turf on our fairways nearly a month and a half to match our greens.

“In addition to earlier root development, the overall improvement in turf density with TerraShield is almost unbelievable.

“TerraShield gave our greens the added stress-resistance they needed to survive the surprise 3-inches of snow we got in May. And, it's helping them withstand the heavy play we get during our short season (up to 30,000 rounds in 9 months).

“This fall every green on our course will be covered with TerraShield.”

Every spring, Warren's TerraShield® proves once again that it is, by far, the best greens blanket in the business.

Best for winter protection – because it gives you up to 3 times more protective blanket material than you get with thin plastic films, flimsy sheets, or lightweight fabrics.

Best for wind protection – because TerraShield is a 100% polyester non-woven blanket that does a better job keeping the cold, dry winds of winter away from vulnerable grass crowns.

Best for early spring green-up in both warm and cool season turf – because it lets the sun's rays and warmth pass through. Root development gets underway earlier so turf is more dense, healthier, and ready for full play sooner.

(Before changing to TerraShield, Crystal Lake Country Club had experimented with another major brand of greens covers but found the turf under those covers got too warm and when they were removed in the spring, the greens couldn't take the shock.)

You can have TerraShield Greens Blankets ready for your course in plenty of time for installation this fall **if you act now!**

Hyundai. Driven to perfection.

Let's face it, most golf cars look the same. At Hyundai, we focused our resources and research on high performance, low maintenance and longer life. Hyundai Golf Cars were not created in a vacuum, but rather from lessons learned on the golf course. Round after round after round, Hyundais were driven to perfection.

That's why we're proud to introduce the most innovative golf cars on the market

today. Our efficient, powerful electric and gas golf cars ensure continuous, trouble-free operation.

A unique suspension system and a wider wheel base smooth out any terrain and offer a much safer, more comfortable ride.

A body constructed of lightweight impact resistant polypropylene and a frame made with high tensile tubular

steel and electrostatically applied paint keep maintenance to a minimum.

More leg room, thickly padded seats, newly designed drink cup holders and spacious storage compartments take care of all the creature comforts.

And yes, Hyundai Golf Cars look great too, especially on the bottom line. A lasting investment that will make a lasting impression on your profit picture. Now that's perfection.

Goosegrass/
Crabgrass

Proven Effective Beyond A Shadow Of A Doubt.

Only one goosegrass/crabgrass herbicide can offer *10 years* of proven effectiveness: SCOTTS® Goosegrass/Crabgrass Control.

When used as directed, it provides the safest, most effective method for eliminating goosegrass and crabgrass on greens.

SCOTTS Goosegrass/Crabgrass Control offers a unique formulation of Betasan® and Ronstar® that requires only one application for season-long control.* It comes ready to use, with no measuring or mixing required. And its uniform particle size makes it easy to apply evenly with a rotary or drop spreader.

Your Scott Tech Rep is a trained agronomist who can help you implement a complete preemergent weed control program that will keep your course on par with the best in the country.

With 10 years of successful Goosegrass/Crabgrass Control applications (on more than 4,000 golf courses), your choice is clear: You can depend on Scott's proven performance record, or someone else's promises.

For more information, contact your local Scott Tech Rep, or call 1-800-543-0006.

NO OTHER PLAYER APPROACHES THE GREEN WITH AS MUCH SKILL OR EXPERIENCE.

And nobody matches Jacobsen greens mowers for precision cut, balance or durability.

Over 65 years of powered greens care experience and innovation make Jacobsen walk-behind greens mowers the industry's standard. And they keep getting better.

The new front roller and no-rust aluminum drive roller are precisely machined to ensure mowing accuracy. With the recognized superiority of the Jacobsen designed reel and bedknife combination, this system delivers the smoothest, truest cut, down to $\frac{3}{32}$ ".

And only Jacobsen uses a 2-cycle engine for longer life, less maintenance and reduced vibration. This smoother running engine is positioned for side-to-side, fore-and-aft balance, for the most precise cut possible.

Choose the 22" unit for the finest tournament-quality cut. Or select the 19" Championship greens mower for an

unmatched cut on highly undulating greens.

Attach the exclusive Turf Groomer™ for faster, truer, healthier greens.

Team either Jacobsen greens mower with the Turf Groomer greens conditioner for the finest greens grooming system available.

Proven on tournament-play courses across the country, this system increases putting speeds up to 20% without lowering your height of cut. And it cuts those horizontal grasses and surface runners other mowers miss, to reduce grain. For healthier, better looking greens. Greater uniformity from green to green. And truer putting.

Ask your Jacobsen distributor for a free demonstration. Attractive lease and finance plans available. Or contact: Jacobsen Division of Textron Inc., Racine, WI 53403.
