Pearce eyes change from within

By Peter Blais

With private club membership practices coming under increasing scrutiny by the public and media, newly elected Club Manager Association of America President Jim Pearce is a firm believer in change from within.

"I've seen clubs change on their own and do away with discriminatory prac-

tices. I don't know of anyone who manages a club that discriminates in the sense of the old term," Pearce said during last month's CMAA Annual Conference and Exposition in Dallas.

"Perhaps there is a lot of discrimination out there. But I am not aware of it in the clubs I have been privileged to manage because they've taken care of

those things. It's taken some time. But I think it's wrong to have to be legislated to change things when it's the member who is footing the bill and not the government."

Pearce was club manager of the Binghamton (N.Y.) Club in the mid-1950s when the board of directors voted

Aerator patent not enforceable

By Peter Blais

A federal judge has ruled the patent on a pond aeration device used on golf courses is unenforceable because the manufacturer obtained it improperly.

U.S. District Judge Donald Alsop ruled Feb. 20 that Daniel Durda, chairman and chief executive officer of Aeration Industries Inc. of Chaska, Minn., altered docu-

USGA specs under fire, face change

By Kit Bradshaw

The heat is on for change to the United States Golf Association's specifications for greens construction, which have been reduced to pamphlet size since the original one-inch-thick document.

Depending on the source, these specifications, an industry-wide standard for three decades:

- Are not based on sound scientific rationales.
- Have a problem in the

The 175-yard 8th hole at the Doug Carrick-designed Twin Rivers Golf Course spans a salmon river in Terra Nova National Park, Newfoundland. For more information on this course and others in North America, see pages 28-31.

Idaho legislators nix field burning bill

By Bob Spiwak

BOISE, Idaho — The state Legislature on March 6 quashed a bill to limit the burning of turfgrass fields in Idaho, which produces tall fescue and Kentucky bluegrass for the nation.

Burning has proved the most cost-effective method

of controlling disease and pests in the fields, but has been opposed by environmentalists who decry the black smoke from the

fires every fall. The opposition came to a head in 1988 when a wind-shift pushed the smoke from a burning field across a major highway in Oregon, causing a 37-car collision and fatally injuring seven persons.

Prior to the Legislature's
