

Dollar Spot

Leaf Spots

The Most Effective, Longest-Lasting Solution.

In university test after test, and on course after course, Vorlan® has proven to be the most effective Dollar Spot and Leaf Spots fungicide available.

It's the result of Vorlan's unique chemistry, making it both a curative and longer lasting preventative. One application insures

disease-free turf for up to 28 days!

Vorlan is also more economical. The cost-in-use is lower, because it lasts longer.

And Vorlan is easier to use. You can apply it at the same low rate for both Dollar Spot and Leaf Spots control. And it's available in both liquid flowable and wettable powder forms.

Contact your Grace-Sierra distributor today and order Vorlan. Or, call us toll-free at 1-800-492-8255.

Because nobody can help you through the tough spots like we can.

TURF FERTILIZER

GRACE SIERRA

ONCE™ gives you consistent, superior turf color and growth because it feeds continuously—all season.

ONCE eliminates the “feast or famine” effects of conventional fertilizers. This insures uniform, superior growth—with even mowing cuts. And minimal nutrient pollution.

ONCE was developed using our OSMOCOTE® resin coating technology, the leading controlled release fertilizer worldwide. This unique system meters nutrients continuously—every day—for a full season.

Because release is based *only* on temperature—not water, pH, or bacteria as with other fertilizers—nutrient availability matches turf and plant growth needs.

ONCE is available in a variety of analyses and 8-9 and 5-6 month longevities.
