RegalFate™

THE FATAL ATTRACTION FOR INSECTS!

Now landscape managers can provide a service urgently needed by homeowners.

As easily as spreading fertilizers, you can control fleas, ticks, ants, spiders and many other pesky insects while they are still outside the home.

RegalFate™ is a granular insecticide. The active ingredient is impregnated on a 100% edible, organic carrier and then baited to attract the insects to eat the toxicant. Ingestion is many times more effective than contact or vapor action of insecticides.

Just spread a 10 foot band of RegalFate™ around the house or building for complete insect control.
