CIRCLE #122

# C-LOC

## A VERSATILE SYSTEM THAT FITS INTO ANY PLANS

The C-LOC retention system is a practical and economical solution to shoreline, soil erosion and water abatement problems.

Panels are made from weather resistant, heavy-duty extruded PVC plastic; C-LOC panels are lightweight, and easy to work with. A two-man crew can usually handle most projects using a sledge hammer or jack-hammer. **No heavy construction equipment is required.**

C-LOC can be used to build new seawalls, restore integrity and appearance of existing seawalls; control soil erosion along rivers, streams and lakes; shore up elevated tees and greens on golf courses and more. Panels are ultraviolet resistant and environmentally safe.

Call or write for detailed information:

### Ryerson Plastics

a division of  
Joseph T. Ryerson & Son, Inc.  
P.O. Box 8000 • Chicago, Illinois 60680  
Phone: (312) 762-2121 Fax: (312) 762-0211

Seawall installation for waterfront development. Pointe Fourchon, LA.

Golf course application... cart path and raised tee area.

C-LOC's unique interlocking panels.
