# Choices, choices.

## To VFD or not to VFD (or constant speed, centrifugal or vertical turbine, or simply upgrade the pump station you have)?

There isn't a single pump station solution. Depending on your choice, you can save time, money, energy and even your reputation. To help, SyncroFlo has written PUMP STATION SELECTION REPORT, a practical guide that reviews pumping system basics. It also has a check list of issues to address before deciding.

**We don't just make pump stations, we provide irrigation solutions.**

The SyncroFlo line of EAGLE® pump stations is among the most extensive in the world. You'll find our stations have more STANDARD features than other manufacturers offer as options. All are backed by the best guarantees and support in the industry, not the least of which are total system, third party performance and safety certifications.

**Yours for calling  
1-800-886-4443:**
