

Courses newly approved across the U.S., Germany, Japan

Golf Course News is publishing these lists monthly from our sources and with the assistance of Forecast Golf Marketing & Financial Systems, Inc. of Richmond, Va. They include courses that have been approved in the past month. The accompanying chart contains the sites and contacts for new courses and renovations in the planning stages. When those courses are ready to begin construction they will be listed again in this "Courses newly approved in the U.S." chart.

We would appreciate your help in updating this section. To contact us call 207-846-0600 or write Golf Course News, P.O. Box 997, Yarmouth, Maine 04096.

Under "Type" — D= Daily Fee; P= Private; and M= Municipal.

Under "Class" — R= Regulation; E=Executive; P=Par 3.

Under "Work" — N=New; R=Renovation.

AquaGro 20•Spreadable.
More Concentrated,
15% Less Expensive To Use.

Spread The Word.

Turf managers everywhere are spreading the word that the number one selling soil wetting agent costs less than ever before to apply. All the more reason to use the new AquaGro 20•S to solve your water related problems.

New AquaGro 20•S gives you the same outstanding performance as the old formulation, it's just more concentrated. And we're passing the cost savings on to you. What used to cost about \$4.40 per 1000 sq. ft., now costs less than \$3.75 — that's a 15% savings.

Just like the other AquaGro formulations, AquaGro 20•S speeds the movement of water into dry spots, compacted soils and slopes, drains wet areas and moves water soluble chemicals through thatch.

No other soil wetting agent manufacturer offers you the money-back performance guarantee that's printed on the front of every bag.

Lower price, guaranteed performance — that's an unbeatable value.

So when the heat is on, use AquaGro 20•S; it helps you make the most of available water.

To find out how the new, economical AquaGro 20•S can make you a better water manager, call us for a FREE copy of the User's Guide.

1-800-257-7797.

Another Reason To Use AquaGro.
