Rhone-Poulenc turf guide

Free technical guide available to superintendents

Golf course superintendents may now receive a free copy of Rhone-Poulenc's Chipco *Turf Problems and Solutions* technical reference guide.

This illustrated, 36-page book helps turf professionals to first identify which weed, disease or insect pest is damaging their turf and then directs them to the best methods of cultural and chemical control available.

Superintendents may receive a copy by contacting their local Chipco distributor or Chipco sales representative, who will analyze their specific pest problems and complete the guide's one-page customer profile sheet.

This information will be relayed to Rhone-Poulenc so the company can service customer needs more efficiently.

NGF offers four new golf publications

The National Golf Foundation has released several new publications.

Lessons Learned from New Municipal Golf Course Development will assist public officials, golf course operators and prospective developers to better understand the variety of approaches to land acquisition, financing, construction and management of municipal golf courses.

Golf Courses in the United States — 1992 Edition is an annual baseline study describing the number, types and locations of facilities and many more details particularly significant for companies providing products and services for golf courses.

Golf Participation in the United States — 1992 Edition offers comprehensive information on the American golfer. Demographics include age, gender, income and occupation broken down by core, occasional, female and junior golfers, with rounds played.

Golf Courses and Country Clubs: A Guide to Appraisal, Market Analysis, Development and Financing offers the developer or appraiser an expert's view of how to conduct appraisals on golf clubs and facilities. Such topics as highest and best-use analysis, cost approach, income approach and sales comparison approach are reviewed and examples given.

To order any NGF publication call 800-733-6006.

The DonuT Trimmer Edging Blades
