## Plan now to attend these two exciting conferences

### Marketing to Golf Facilities

*A 2-day seminar loaded with ways to help you focus your marketing strategy to the golf course industry*

October 4-6, 1992  
Oak Brook Hills Hotel and Resort  
Oak Brook, Illinois

Plan now to attend *Marketing to Golf Facilities*—a comprehensive seminar for vendors and suppliers to the turf industry.

- Learn the latest trends on the growth of golf facilities and key growth areas for the future
- Discover how superintendents and facility managers recommend, specify and purchase everything they buy—from chemicals to irrigation equipment
- Evaluate your strategy for reaching the golf market—and how to assess a successful marketing campaign
- Gain a competitive advantage in converting leads into sales

### Public Golf '92

*The premier national conference for managers of public golf facilities*

November 1-3, 1992  
Oak Brook Hills Hotel and Resort  
Oak Brook, Illinois

Don't miss this exciting conference to help you profitably manage, maintain and market the public course.

- Discover what's new—ideas, trends, and methods. A look at the bright future of public golf—and your part in it
- Examine profit minded planning, feasibility, expansion, and construction—and successful ways to finance it
- Get better results by learning new ways to manage and maintain your operation
- Develop a marketing strategy to dominate the market

With **Naiad**, you can keep your turf green and irrigate less because...

The pressure is on. You're expected to conserve water, reduce your irrigation costs and still maintain the lush, spring-green appearance of your golf course.

No, you don't need a miracle — just a Naiad injector system.

The Naiad method is the easiest way to quench your turf's thirst and encourage deep root growth. A fully-developed root system is your turf's best defense against disease.

Naiad allows water to easily infiltrate compacted soil structures and other hard-to-wet areas. Now you can deep water without waste. By increasing soil moisture content, your grounds crew will spend a lot less time treating localized dry spots.

Whether you use an injector system, pellet or granules, Naiad covers more turf than any other wetting agent on the market. Naiad is so economical, you can apply it during the entire irrigation season.

Isn't it time to put Naiad to work beneath your turf?

Our knowledgeable field specialists are available to discuss your water management problems.

For more information, call us toll free at 1-800-541-6662.

## Success In Golf Is Often Measured In Inches.

The scenic 18th green and unique water feature at Ventana Canyon Resort near Tucson, AZ.

### At The Watersaver Company, We Measure Success In Zero Leakage.

For over 20 years, our lining systems have been used to prevent seepage loss in lakes for some of the country's finest golf courses.

We specialize in the fabrication and installation of membrane liners for decorative lakes, traps, greens and aquascapes. So, before you design or build your next project, talk to us.

We can assist you with the right technology that will prevent your work from becoming a real hazard.

And, if your existing lakes are showing signs of leakage, it may be time to retrofit with Hypalon® or PVC membrane liners fabricated for both durability and cost effectiveness.

For assistance with specifications and cost estimates on your next golf course project, contact the Watersaver Company today!

\*Hypalon is a Registered Trademark of E. I. DuPont

# The Fungicide Turf Managers Swear By (Not At).

For more than 20 years, turf managers have known Fungo® is the fungicide they can always trust—for reliability and effectiveness.

Fungo provides broad spectrum control of most major turf and ornamentals diseases. And, Fungo is economical to use. Its systemic activity keeps

on working for up to 14 days with one application.

And now, Fungo is available in dry flowable form, as well as in liquid flowable

and WP. Just choose the one that's perfect for you.

Contact your Grace-Sierra distributor today and tell him you want Fungo.

Or call us today toll-free at 1-800-492-8255.

Use Fungo. You'll swear by it for good.

#### Fungo Controls All These Turf Diseases:

- Dollar Spot
- Brown Patch
- Anthracnose
- Copper Spot
- Red Thread
- Summer Patch
- Necrotic Ring Spot
- Fusarium Patch
- Fusarium Blight
- Stripe Smut

Tournament Condition Every Day.

Until now, most utility trucks have been better known for carrying repair bills than materials. Our new line of four utility trucks—built Jacobsen tough from end to end—changes all that.

For example, the 2315 has a durable 23.5 liquid-cooled diesel, 5-speed transmission with reverse and heavy-duty automotive-type clutch, creating a new standard of dependability.

The 2315 packs a 1,500 lb payload. Unlike other utility trucks, it comes complete with heavy-duty hydraulic dump box, removable side panels and tailgate, implement PTO, lights, full hydraulics and complete instrumentation *standard*.

Our rugged line also includes the 20 hp gas model 2015 and the 1,000 lb payload, gas powered 810 Express and electric 610 Express. For maximum versatility and productivity the 2315 and 2015 can be outfitted with sprayer, top dresser, aerator and spreader attachments. If you already have attachments, our universal mounting kit lets you use them on either truck.

To see them in action, ask your Jacobsen distributor for a demonstration today.

THE PROFESSIONAL'S CHOICE ON TURF.
