

# What a beautiful new way to put your course in the black.

**Our sleek black Royale  
Flag Sticks may be just the  
look you're looking for!**

These new black Royale Flag Sticks were originally designed to provide greater contrast and visibility on desert, links or seaside courses. But they're already proving to be very popular on courses everywhere. ♦ Underneath their tuxedo black exterior, these are the same high quality Royale Flag Sticks we've been making and selling for decades. Manufactured of strong and resilient fiberglass (that's black through and through), they're built to provide the highest

quality flag sticks in the industry.

♦ For more information about the world's most complete and colorful line of flags and flag sticks, simply contact your nearby Standard Golf distributor. And be sure to ask about our black beauties. They're definitely a horse of a different color!

# On a golf course a bad score should be the only thing that stinks.

Foul odors, algae and sludge in golf course ponds are enough to ruin anyone's game. The results of poor water management can be unsightly, smelly and costly.

Now Otterbine has developed CONCEPT<sub>2</sub>, the new high-technology surface aerators that can revolutionize your approach to water quality management.

CONCEPT<sub>2</sub> High Volume aerators are built to last, made of stainless steel and tough, versatile thermoplastics, with a rugged, custom built motor and a virtually unbreakable stainless steel prop designed to handle large volumes of water.

And CONCEPT<sub>2</sub> offers almost unlimited versatility, with easily installed, totally interchangeable spray patterns.

SUNBURST<sub>2</sub> in Otterbine's CONCEPT<sub>2</sub> line answers the challenge of producing a sparkling water display with minimal effect on pumping rates.

CONCEPT<sub>2</sub> and SUNBURST<sub>2</sub>, fulfill the Otterbine tradition of scientifically designed, highly efficient, compact, self-contained aeration systems. They are simple to install and economical to operate.

They need no foundation, external pumps, or other costly plumbing fixtures. All Otterbine Aerators are safety tested and approved by the Electrical Testing Laboratory.

Call or write, today, to find out how CONCEPT<sub>2</sub> can help you keep your water quality up to par.

SUNBURST<sub>2</sub>

CONCEPT<sub>2</sub> High Volume

**For mowing performance features, nothing else can make this cut.**

Superior greens start with superior greens mower features. And the all-new Greens King® 422 is loaded with them.

Exceptional side-to-side, front-to-rear balance and a more compact roller base help accentuate your greens' details, rather than your mower's limitations.

Our new 11-blade, electronically balanced reel delivers an unbelievably smooth cut, even down to 5/64." Plus, our exclusive Turf Groomer® option simply produces faster, truer, healthier greens than any imitator.

**Clutch performer.**

No other walking greens mower can touch the 422 for reliability. Our all-new clutch has been tested out to the equivalent of 70 years of operation, without any adjustment or lubrication.

The same eye for quality extends throughout this unique machine—from our space-age, long-life bearings and

bushings, to the most durable drive belts made, to the powerful, high-efficiency 4-hp, 4-cycle OHV Honda engine.

With features like drop out drive drum, reel and bedknife, and easy, slide-apart traction roller with built-in differential, the Greens King 422 cuts maintenance time as neatly as it cuts grass.

See for yourself why it's a whole new ballgame, ask your Jacobsen distributor for a complete demonstration.

THE PROFESSIONAL'S CHOICE ON TURF.
