

Lohmann track an exclusive challenge

LIBERTYVILLE, Ill. — The exclusive Merit Club recently opened for play here.

The 21-hole golf course includes three practice holes, practice tee and chipping

and putting green.

The 6,900-yard track, situated on 305 acres of rolling pasture land, was designed by Lohmann Golf Designs, Inc. and Mid-

west Golf Development, Inc., Marengo.

Lohmann and Midwest also are extensively remodeling and expanding Indianhead Golf Course in Mosinee, Wis.

"NOVATEE"

SEARCH NO MORE

NOVATEE is the perfect solution.

NOVATEE the combination of specially manufactured synthetic grass of commercial quality. Its patented design, featuring our special topdressing allows golfers to tee up or hit irons as on natural grass.

- Ask about our fantastic new generation of NOVATEE.
- Absolute minimum maintenance.

NOVAPATH for carts and to keep the ball in bounds in those risky areas.

Finally, a Solution.

Get your course on AXIS. Introducing, AXIS from Eagle-Picher Minerals, Inc., an easy, cost-effective way to improve the turf quality of any golf course. Improve your course with AXIS - the ideal porous medium for superior soil structure and turfgrass.

Made from a unique diatomaceous earth, AXIS improves greens and tees by increasing root growth. It significantly increases soil porosity and retains water for the root zone. AXIS keeps your course in tournament shape, even under the most stressful conditions.

AXIS is inert, non-compactable and indefinitely stable. It can be used on new and existing turf. Unlike sand,

AXIS' honeycomb structure contains open-ended, continuous pores.

AXIS is made in America and is more cost-efficient than the imports.

Start managing your soil structure and improving the root zone of your greens. Put your course on AXIS, a pivotal solution to your turf management problems.

For more information call
(800) 228-3857.
