

Let's face facts. No matter how great

a deal you got

on your golf cars,

Our O.H.V. four-stroke engine is designed and built completely by Yamaha.

they're not going

to do you much good if they're not

running. A dilemma easily alleviated

To be perfectly honest, our golf cars do require periodic maintenance.

by choosing Yamaha. **F**irst and foremost,

we make a reliable car. That means they

spend their time on the course, not in

the shop. And you know what that does

for rental revenues. **T**he cost of running

your cars is just as important as their

dependability. So it's nice to know that

an independent testing organization has

proven both our gas and electric models to be the most efficient cars available. **I**f you'd like

to know more about Yamaha, go ahead and give us a call. We'll hook you up with a

knowledgeable dealer who can get you better acquainted with our trusty cars. And

show you the true meaning of "return on investment." **U**nfortunately, we haven't

figured out how to keep them from getting dirty yet. But we're working on it.

For Consistent Superior Growth Apply Just

ONCE™ gives you consistent, superior turf color and growth because it feeds continuously—all season.

ONCE eliminates the “feast or famine” effects of conventional fertilizers. This insures uniform, superior growth—with even mowing cuts. And minimal nutrient pollution.

ONCE was developed using our OSMOCOTE® resin coating technology, the leading controlled release fertilizer worldwide. This unique system meters nutrients continuously—every day—for a full season.

Because release is based *only* on temperature—not water, pH, or bacteria as with other fertilizers—nutrient availability matches turf and plant growth needs.

ONCE is available in a variety of analyses and 8-9 and 5-6 month longevities.

ONCE. Contact your Grace-Sierra turf/landscape distributor or call us toll-free at 1-800-492-8255.

Use ONCE, just once, for the best results all season long.

In Japan, golf is an obsession. Their courses attest to this fact. And so does their leading import—the Jacobsen Greens King IV.™

Uncompromising quality is what it's all about. In the cut. And in the equipment.

The Greens King IV has the lightest footprint in the industry to minimize compaction. Its exclusive, fully floating, pivoting reels steer through turns without scuffing or marking on the clean-up pass. Individual reel control and power backlapping keep reels sharp with less work. Plus, Jacobsen's quality reel, and unique Turf Groomer® option continue to set the standard for fine greens mowing...in Japan ...and around the world.

To see why the Greens King IV is Japan's number one golf import, ask your Jacobsen dealer for a demonstration.
