

In Case Of Pythium Break Open This Case.

Koban® turf fungicide kills Pythium instantly—on contact.

Keep Koban on hand because, left untreated, Pythium can spread like wildfire.

Koban is the most effective Pythium control available. In over 20 years of use, there's never been a reported case of resistance. It's the brand more and more superintendents are using, because they know

they can trust it, completely.

Koban is available in two convenient formulations—30% wettable powder or 1.3% granular. You can spot apply the granular without interrupting play. And increase the effectiveness of your systemic preventive program by rotating in either formulation at low rates.

Call your Grace-Sierra distributor today. Or for more information call us toll-free at 1-800-492-8255.

And get a case or two of Koban right now. Keep it handy, just like you do a fire extinguisher.

Just in case...

CIRCLE #101

Magnify the **PERFORMANCE** of your pump station

Plug in the **PSI-VFD** upgrade package from
Pumping Systems, Inc.

Converting your
conventional pump station to
Variable Frequency Drive
control provides
immediate benefits:

Energy Savings
Cut operating costs dramatically by
adding the efficiency of VFD control.

Ease of installation
Most pump stations can be upgraded to VFD
control without interruption of normal irrigation.

Available 3-Year Warranty
Your **PSI-VFD** upgrade package is covered by
PSI's global, factory-trained service network.

Lower Maintenance Budget
VFD control minimizes surges, reducing
stress on the irrigation system. This
translates into fewer repairs.

The operational software includes some powerful features:

Smart-Flow
An automatic feature which saves money by
intelligently controlling system pressure.

Auto-Restart & System-Recharge
These features work together to restart the
pump station after electrical interruptions and
minimize downtime caused by power outages.

EZ Touch
PSI's exclusive Programmable Logic Control (PLC) interface
which provides user-friendly access to the pump station.

For more information call **Pumping Systems, Inc.**
(800) 527-0539

Finally, a quality light-weight with plenty of mowing muscle.

At less than 10 PSI ground pressure, the all-new Jacobsen LF-3810 treads lightly on the most delicate fairways. Yet its 5 heavy-duty

7" diameter, 10-blade reels deliver the high torque to handle all kinds of grasses and conditions beautifully. Plus, 26" balanced reels and our unique rear roller down pressure system produce tournament quality results at production mowing speeds, hugging undulations other machines would scalp.

Accessibility you'll flip over.

The entire operator platform and rear hood flip up, completely out of the way, for easy access to all key components. Also, the center cutting unit slides back, for quick, easy adjustments.

Comforting news for operators.

The LF-3810 is loaded with operator comfort features, including: full suspension seat with armrests; 5-position tilt, power steering; easier two-pedal hydrostatic drive; full instrumentation; even holders for their favorite soft drink and personal items.

Transverse engine mounting helps you handle slopes with confidence.

This up-front automotive design produces surprising traction and excellent climbing ability in a 2-wheel drive unit.

Exclusive SynchroLift control—Cross cutting at its easiest & most productive.

A simple push or pull of the synchronized lift levers is all it takes with this system. The machine automatically raises the reels to turning height, then lowers them for nimble, flawless cross cutting.

Maintain a spotless reputation on the fairway with GreenSentry™

Our advanced oil leak detection system is standard, to give you every advantage possible on the fairway.

The list goes on and on.

Variable-speed, power backlapping; 3, 4 or 5 gang operation; heavy-duty hydraulic system; a 38 hp, liquid-cooled Kubota diesel . . . the quality features just never seem to quit.

For a complete list of features and benefits, as well as a complete demonstration, contact your Jacobsen dealer today.
