For Consistent Superior Growth Apply Just

ONCE™ gives you consistent, superior turf color and growth because it feeds continuously — all season.

ONCE eliminates the “feast or famine” effects of conventional fertilizers. This insures uniform, superior growth — with even mowing cuts. And minimal nutrient pollution.

ONCE was developed using our OSMOCOTE® resin coating technology, the leading controlled release fertilizer worldwide. This unique system meters nutrients continuously — every day — for a full season.

Because release is based *only* on temperature — not water, pH, or bacteria as with other fertilizers — nutrient availability matches turf and plant growth needs.

ONCE is available in a variety of analyses and 8-9 and 5-6 month longevities.

ONCE. Contact your Grace-Sierra turf/landscape distributor or call us toll-free at 1-800-492-8255.

Use ONCE, just once, for the best results all season long.
